Welcoming Messages

Ministry of Health

Psychosomatics, psychosomatic illness and psychosomatic medicine – it is hard to find anyone today who has not heard of it. Most people will answer correctly that these terms have something to do with the “body-mind problem” which has been known to exist for centuries and investigated by numerous scientists from the most varied disciplines. However, outside the world of experts, only a few people are aware of the complexity of interactions between psychological and physical processes. And it so happens time and again – sometimes even in the everyday provision of medical care – that the term “psychosomatic” is linked to the stigma of hypochondriasis, of complaints and symptoms that are merely imaginary and hence need not be taken seriously. Fortunately, however, people are at long last beginning to “unlearn” such beliefs, the relics of centuries-old thinking based on the dichotomy between body and mind. After all, psychiatry, psychosomatic medicine and psychotherapy have meanwhile become universally recognised medical disciplines. The wide array of issues to be discussed at the 25th European Conference on Psychosomatic Research shows that scientific psychosomatics can look back on a long and successful tradition. Precisely in Germany, the setting up of specific psychosomatic clinics or departments at hospitals and universities since World War II has led to an expansion of the spectrum of care available to patients, at the same time effectively stimulating psychosomatic research. However, in spite of the intensive work pursued world-wide, many questions are still unanswered. We are indeed pursuing the right approach in co-ordinating our scientific activities across national borders and subjecting them to broad discussion. Today’s Conference is a fine case in point: physicians and scientists, psychologists, sociologists and representatives of a number of other professions from Europe and other countries have come together here to share their experience and know-how of the physical, psychological and social links involved in the aetiology, progress and treatment of human illnesses. I warmly welcome all participants in the 25th European Conference on Psychosomatic Research in the German capital to what I wish will prove to be an interesting and fruitful event. I am sure that this Conference will inspire a line of research which will benefit especially the patients in all of the countries involved.

Ulla Schmidt

Welcoming Messages

Greeting from the Governing Mayor of Berlin, Klaus Wowereit

I am delighted to be able to welcome you to Berlin for the 25th European Conference on Psychosomatic Research. Having this anniversary conference – 50 years after the first such congress – held in our city honors Berlin as a major congress and trade fair location. Your choice has brought you to what is not only an internationally renowned congress metro-polis, but a city with a great medical tradition as well. Well-known researchers like Ferdinand Sauerbruch, Robert Koch, and Rudolf Virchow helped to establish Berlin's reputation as a cradle of medical science and research. Even today, Berlin remains committed to upholding this tradition. It is a legacy that we have succeeded in building on in recent decades. Berlin's science, research, and development landscape is outstanding – the capacity represented by its universities, colleges, and private institutes is unparalleled in Germany. The European Conference on Psychosomatic Research underscores our reputation as a "city of knowledge." I am delighted that you have come to Berlin to attend this important conference, and I wish all of you stimulating discussions, thought-provoking papers, and, hopefully, exciting new insights. At the same time, I would like to invite you to also take a look around our city. Your conference venue is located in the heart of Berlin, near the dynamic area surrounding Oranienburger Strasse and Hackescher Markt. There you can relax in one of the neighborhood's many cafés and restaurants after a stimulating day at your conference. Or you might want to have a look at Berlin's wide-ranging cultural calendar, which has something for everyone with many highlights a day.

Klaus Wowereit

Welcoming Messages

Dear Colleagues, Fifty years after the first conference, the 25th European Conference of Psychosomatic Research 2004 will take place in Berlin, in the heart of Europe. The German College of Psychosomatic Medicine is proud to host this renowned international meeting of European psychosomatic researchers. Our aim is to discuss new perspectives in the development, maintenance and treatment of diseases with an emphasis on biological, psychological and social aspects. We are aware of the fact that this type of psychosomatic or behavioral medical research is not possible without the cooperation of physicians, psychologists, sociologists, and others, in an interdisciplinary network. This conference will thus promote an intensive scientific exchange of many professional groups on all levels. We are committed not only to a high scientific standard but also to excellent medical care. We attach importance to the scientific testing of psychotherapeutic treatment methods, which is an integral component of psychosocial care, especially here in Germany. This conference will therefore focus on differential indications as well as psychotherapeutic treatment methods in the short-term and long-term perspective. The position of psychosomatic medicine is very different across European countries. This reflects the different intellectual traditions and historical experiences. The advantage of publishing only well-founded studies with scientifically sound results as judged by peer review carries also a disadvantage. Only those studies which have been performed in a methodologically adequate manner can be included. This means that several complex factors tend to be excluded: doctor-patient behaviour and relationships, the interaction of emotional and unconscious aspects in the interaction between patients and health professionals. Reviewing the abstracts submitted to the scientific board of the 25th ECPR, one is left with the impression of a wide variety of new research: examining the psychosomatic basis of emotion, cognition, memory and adaptive central processes. Further, the perspective gained from research on vegetative, hormonal and immunological phenomena at the cell and receptor level and molecular genetic research. Territory more familiar to clinicians needs to be further developed and expanded: the involvement of psychosocial factors in coronary heart disease or the development and preventive measures of infarction have greatly increased our knowledge about these diseases. There are other areas of research highlighted in the wide variety of scientific work: essential hypertension, bronchial asthma and colitis, irritable bowel syndrome as well as fibromyalgia, eating disorders, metabolic syndrome/diabetes, pain, and psycho-oncology. Stress research has relied upon the experience of catastrophic events and wars. Beside well-known social constructs, such as social support, new constructs like attachment have gained great importance. Gender research, life span and geriatric psychosomatic studies are other areas which are now rightly receiving great attention.

We have invited a number of renowned researchers from Europe and other countries who will ensure an attractive and interesting program. The conference and the social activities program offer an excellent opportunity to explore Berlin and its surrounding countryside, experience the culture and history of Germany, and enjoy the beautiful march of Brandenburg with its castles, forests and lakes. Formerly at the center of the East-West conflict, it is now possible to witness how the Eastern and Western parts of the city have grown together after the fall of the wall. We hope that you will enjoy a few interesting days in this dynamic European metropole and leave this conference with new knowledge and insights. We welcome you in Berlin!

Hans-Christian Deter

CONFERENCE PROGRAM

"PSYCHOSOMATIC MEDICINE – INTEGRATED IN THE MODERN SCIENCES AND THE NEW EUROPEAN SOCIETY"

Wednesday, June 23, 2004

Noon – 7.30 pm **REGISTRATION**
Radisson Foyer

7.30 pm – 9.00 pm **WELCOMING RECEPTION AND CITATION POSTER**
Hall and Rubin

Citation Poster ECPR: Poster 1 – 16

- 1 Acute psychological stress causes a redistribution of memory/effector T-cell subsets in humans
D. Atanackovic, S. Hegewisch-Becker, M. Brunner, M. Wagner, B. Schnee, H.- C. Deter, C. S. Weber, Department of Oncology/Hematology University Clinic Hamburg/ Eppendorf, Department of Psychosomatic Medicine, Charité Campus Benjamin Franklin, Berlin, Germany
- 2 Marital stress as an independent factor of hypertension
P. Balog, E. Meszaros, M. S. Kopp, Institute of Behavioral Sciences, Semmelweis University, Budapest, Hungary
- 3 On the association between coping strategies and mental health in war: a longitudinal investigation
M. Cavka, L. Joksimovic, N. Schmitz, A. Prorokovic, U. Ehler, Psychosomatic Medicine, Heinrich-Heine University Duesseldorf, Germany
- 4 Psychosocial distress and stressful life antecedents associated with smoking
S. Consoli, E. La Rosa, H. Le Clésiau, K. Soufi, G. Lagrue, Department of C- LPsychiatry, Georges Pompidou European Hospital, Paris, France
- 5 Hemodynamic effects of depression
J. Ehrenthal, C. Herrmann-Lingen, M. Fey, H. Schauenburg, Department of Psychosomatics and Psychotherapy, University of Goettingen, Germany
- 6 Body awareness therapy (BAT) – a new strategy for relief of symptoms in IBS patients
E. Eriksson, I. Möller, H. Eriksson, G. Kurlberg, Department of Medicine and Surgery, Sahlgrenska University Hospital/Östra, Gothenburg, Sweden
- 7 Cortisol levels in children and relation to psychosocial factors
P. E. Gustafsson, E. Allansson, P.A. Gustafsson, N. Nelson, Departments of Child Psychiatry and Pediatrics at Faculty of Health Sciences, Linköping, Sweden
- 8 Psychiatric disorders in patients with somatoform pain
B. Kappis, J. Hardt, R. Nickel, F. Petrak, U. T. Egle, Department of Psychosomatic Medicine and Psychotherapy, University Mainz, Germany
- 9 Are personality – blood pressure links stable over a ten year period?
J. Leclerc, M. Rahn, W. Linden, University of British Columbia, Vancouver, Canada
- 10 Women with chronic low abdominal pain: a randomised controlled trial of the effect of Cognitive Behavioural Therapy (CBT)
S. Leganger, G. K. Haugstad, U. Kirste, B. Boye, U. F. Malt, Department of Psychosomatic and Behavioural Medicine, Rikshospitalet University Hospital, Oslo, Norway
- 11 Alexithymia: emotional stimulation and neuronal activity in fMRI
F. Leweke, Clinic for Psychosomatic Medicine and Psychotherapy of the Justus-Liebig-University Giessen, Giessen, Germany
- 12 Prevalence of depersonalization and derealization in psychosomatic inpatients
M. Michal, G. Overbeck, R. Grabhorn, C. Röder, Clinic for Psychosomatic Medicine and Psychotherapy of the J. W. Goethe University Frankfurt, Frankfurt am Main, Germany
- 13 Looking for new stress measures – alpha-amylase in saliva
U. M. Nater, Institute of Psychology, Clinical Psychology and Psychotherapy, University of Zurich, Switzerland
- 14 Family history significantly predicts hypertension development but life event stress does not
M. Rahn, J. Leclerc, W. Linden, University of British Columbia, Vancouver, Canada
- 15 Effects of acute psychological stress on the production of reactive oxygen species
J. Schulze, D. Atanackovic, H. Kröger, M. C. Brunner-Weinzierl, H.- C. Deter, Department of Psychosomatic Medicine, Charité Campus Benjamin Franklin, Berlin, Germany
- 16 Who needs what? Stage-specific help for patients with rheumatoid arthritis
J. Winter, S. Lippke, J. Ziegelmann, Free University Berlin, Berlin, Germany

Citation Poster EACLPP: Poster 1 – 5 (please see EACLPP program at page 59) Poster award of the Ernst Reuter Society, Free University Berlin, dedicated to young psychosomatic scientists.

Thursday June 24, 2004

7.30 am – 7.30 pm REGISTRATION
Radisson Foyer

7.45 – 9.45 am PRE-CONFERENCE WORKSHOPS IN RESEARCH METHODS

PW 1
Rubin
New methods in psychosomatic research:Neuroimaging
M. Fredrikson, Uppsala, Sweden, H. Flor, Mannheim, Germany

PW 2
Turmalin 2
Operationalized psychodynamic diagnostics (OPD)
G. Rudolf, Heidelberg, Germany, M. von der Tann, London, UK

PW 3
Jade 2
Computer assistance in diagnosis and therapy
N. Hartkamp, Duesseldorf, Germany, M. Rose, Berlin, Germany

PW 4
Jade 1
Suffering - the concept and its measurement
T. Sensky, London, UK, A. Vingerhoets, Tiburg, The Netherlands

PW 5
Turmalin 1
Treatment of functional somatic symptoms and primary care using the term model
E. Rehfeld, M. Rosendahl, P. Fink, Aarhus, Denmark

PW 6
Opal
Non-verbal communication analysis in psychotherapeutic interviews
H. Lausberg, Berlin, Germany

10.00 – 11.30 am ECPR OPENING CEREMONY
Saphir 1/2
Welcome addresses:
H.Kühn-Mengel,Deputie for Patients Affairs of the Federal Government,German Ministry of Health
H.G.Husung,Secretary of the Senate of Berlin for Science and Culture
D.Ganten,Executive Director,Charité Berlin
G.Christodolou,President of the International College of Psychosomatic Medicine
P.Joraschky,P.Janssen,Presidents of the German College/Society of Psychosomatics and Psychotherapy

Chair: C. Scheidt, Freiburg, Germany

Psychosomatic treatment of irritable bowel syndrome:lessons from a drug and psychotherapy comparison
Douglas A. Drossman, Center for Functional GI and Motility Disorders, University of North Carolina, Chapel Hill, USA

11.30 –11.45 am COFFEE BREAK
Hall

11.45 – 1.30 pm COMMONSYMPOSIA ECPR AND EACLPP S 1 – S 3

S 1
Saphir ½
Psychosomatic service systems in different European countries –a Public Health perspective
Chair: K. D. Henke, Berlin, Germany

11.45 am
Psychosomatic treatment in Europe:The German situation
U. Koch, Medical Psychology, University Clinic, Hamburg, Germany

12.05 pm
The psychosomatic system in the UK – do services address the needs of people with psychiatric disorders in general medical settings?
F. Creed, Department of Psychiatry, University Manchester Royal Infirmary,Manchester, UK

12.25 pm
Psychosomatic and psychosocial service system in Switzerland
C. Buddeberg, Department of Psychosocial Medicine, Zurich, Switzerland

12.45 pm
The development of national systems of healthcare in the EU member states and potential consequences for psychosomatic care
G. Danner, Deputy Director of European Representation of German Social Insurance, Brussels, Belgium

1.15 pm
Discussant:K.D.Henke,Berlin,Germany

S 2
Rubin
Health and social environment – social disadvantage and social capital in relation to health
Chairs: A. Steptoe, London, UK, P. Rosemeier, Berlin, Germany

11.45 am
Social inequalities in health:new explanations and implications for prevention
J. Siegrist, Institute of Medical Sociology, University of Duesseldorf, Germany

12.10 pm
The influence of different countries and cultures on health – a growing field in psychosomatic medicine
T. Theorell, National Institute for Psychosocial Medicine (IPM), Stockholm, Sweden

12.35 pm
Unemployment and physical complaints in young adults
S. H. Berth, P. Förster, E. Brähler, Medical Psychology, University Hospital, C. G. Carus, Dresden, Departments of Medical Psychology and Medical Sociology,University of Leipzig, Germany

- 12.55 pm Secondary traumatization and burnout in ambulance services – first results of a longitudinal study
D. Groß, P. Joraschky, B. Größ, K. Pöhlmann, University Hospital for Psychotherapy and Psychosomatic Medicine, Dresden, Germany
- 1.15 pm Discussant: A. Steptoe, London, UK
- S 3**
Turmalin 1/2 **Depressive disorders and somatization – psychotherapy or psychopharmacotherapy?**
Chairs: E. Guthrie, Manchester, UK, A. Lobo, Zaragoza, Spain
- 11.45 am Psychotherapy and pharmacotherapy in depressive disorders
M. Linden, Research Group Psychosomatic Rehabilitation at the Charité, University Hospital Benjamin Franklin, and the Rehabilitation Centre Seehof, Teltow/Berlin, Germany
- 12.05 pm The role of depression in the diagnosis and treatment of somatoform disorders
P. Henningsen, Department of Psychosomatic Medicine, University Hospital Heidelberg, Germany
- 12.25 pm Psychosomatic therapy in somatization disorders: a manual on psychodynamic-interactional group therapy for the treatment of somatoform pain disorders
R. Nickel, U. T. Egle, Clinic for Psychosomatic Medicine and Psychotherapy, University Hospital Mainz, Mainz, Germany
- 12.45 pm Psychotherapy or psychopharmacotherapy – what is the best way in consultation/liaison services?
J. J. Strain, Mount Sinai Medical Center, New York, USA
Discussant: M. Rigatelli, Modena, Italy
- 1.30 – 2.30 pm LUNCH (not included)**
- 2.30 – 4.30 pm SYMPOSIA S 4 – S 7**
- S 4**
Saphir 1 **Neurobiology and emotions**
Chairs: H. Walter, Ulm, Germany, J. Thayer, Baltimore, USA
- 2.30 pm Neural substrates of implicit and explicit emotional processes: implications for psychotherapy
D. R. Lane, University of Arizona, Tucson, USA
- 2.55 pm Emotional memory and brain plasticity: significance for the understanding of psychopathology
H. Flor, Central Institute of Mental Health Mannheim, Germany
- 3.20 pm Anxiety related brain mechanisms in social anxiety disorder
M. Fredrikson, T. Furmark, M. Tillfors, Uppsala University, Sweden
- 3.45 pm Cerebral activation by linguistic threat in panic patients – results from an fMRI study
M. E. Beutel, S. Dietrich, D. A. Silbersweig, E. Stern, D. Vaitl, R. Stark, Clinic for Psychosomatics and Psychotherapy, Giessen, Germany
- 4.00 pm Alexithymia correlates with the size of the right anterior cingulate
H. Gündel, A. López-Sala, A. O. Ceballos-Baumann, J. Deus, N. Cardoner, B. Marte, Psychosomatic Medicine, School of Medicine Rechts der Isar, Technical University of Munich, Germany
- 4.15 pm Discussant: H. Walter, Ulm, Germany
- S 5**
Saphir 2 **Cultural influences in health and disease**
Chairs: T. Sivik, Gothenburg, Sweden, J. Streltzer, Honolulu, USA
- 2.30 pm Psychopathological consequences of extreme trauma in a population of refugees who survived torture
M. Germani, S. Terriero, P. Bernini, Ospedale S. Giovanni-Addolorata, Roma - Consiglio Italiano per i Rifugiati, Rome, Italy
- 2.50 pm Unfinished mourning and somatization
N. Makhashvili, Georgian Center for Psychosocial and Medical Rehabilitation of Torture Victims, Tbilisi, Georgia
- 3.10 pm Posttraumatic stress disorder in refugees from Iraq
T. Theorell, National Institute for Psychosocial Medicine (IPM), Stockholm, Sweden
- 3.30 pm Psychotherapeutic treatment of traumatised refugees with PTSD disorders: a randomised controlled trial
M. Cavka, L. Joksimovic, N. Schmitz, J. Kruse, Psychosomatic Medicine, Heinrich-Heine-University Düsseldorf, Germany
- 3.50 pm The emergence of an American pain management culture and difficulties treating chronic pain
J. Streltzer, Department of Psychiatry, University of Hawaii, School of Medicine, Honolulu, USA
- 4.10 pm Discussant: T. Sivik, Gothenburg, Sweden

S 6 <i>Rubin</i>	Recognition of mental disorders in primary care Chairs: <i>A.Finset,Oslo,Norway,W.Tress,Duesseldorf,Germany</i>
2.30 pm	The specificity of reported physical symptoms for anxiety and depression in general practice <i>M.W.M. De Waal, I.A. Arnold, P. Spinhoven, J.A.H. Eekhof, A.M. van Hemert, Leiden University Medical Center, Department of General Practice, Leiden, The Netherlands</i>
2.45 pm	Physician-patient-relationship and recognition of mental disorders in primary care <i>J. Kruse, N. Schmitz, C. Heckrath, W. Wöller, Psychosomatic Medicine, Heinrich-Heine University Duesseldorf, Germany</i>
3.00 pm	Disclosure of concerns of fibromyalgia patients in medical consultations:The significance of alexithymia <i>A. Finset, University of Oslo, Norway</i>
3.15 pm	Women's help-seeking behaviour in primary care:phase 1 of a mixed methods study <i>M. Fiddler, Psychological Medicine Group, Manchester, UK</i>
3.30 pm	Medically unexplained physical symptoms:The feasibility of group CBT in primary care <i>I.A. Arnold, Department of General Practice, Leiden University Medical Center, The Netherlands</i>
3.45 pm	How do you explain a pain that can't be seen? The narratives of women with chronic pelvic pain <i>L. Mc Gowan, School of Nursing/School of Psychiatry, University of Manchester, UK</i>
4.00 pm	Discussant:P.Fink,Aarhus,Denmark

PAPER SESSION

S 7 <i>Turmalin 1/2</i>	Psychosocial predictors of coronary heart disease and myocardial infarction Chairs: <i>S.Consoli,Paris,France,Ch.Herrmann-Lingen,Goettingen,Germany</i>
2.30 pm	Psychological distress and risk of CHD & myocardial infarction <i>F. Rasul, S. A. Stansfeld, C. Hart, G. Davey Smith, Centre for Psychiatry, Bart's & The London School of Medicine & Dentistry Queen Mary University of London, UK</i>
2.45 pm	Procoagulant changes as a link between stress and coronary heart disease:State of the art <i>R. von Känel, Department of General Internal Medicine, University Hospital Bern, Switzerland</i>
3.00 pm	Exhausted and depressed mood,C-reactive protein and coronary heart disease in initially healthy men <i>K.- H. Ladwig, GSF – National Research Center for Environment and Health, Institute of Epidemiology, Neuherberg, Germany</i>
3.15 pm	Endothelial progenitor cells and psychosocial risk factors for cardiovascular disease <i>J. Fischer, Institute for Behavioral Sciences, Swiss Federal Institut of Technology, Zurich, Switzerland</i>
3.30 pm	The risk factors for depression in first myocardial infarction patients <i>C. Dickens, Department of Psychiatry, Manchester University, UK</i>
3.45 pm	The impact of a behavioral intervention program on heart rate variability in coronary patients: the Exhaustion Intervention Trial (EXIT) <i>R. Van Diest, M. Kwaijtaal, A. Appels, Departments of Psychiatry, Medical Microbiology and Medical Psychology, Maastricht University, The Netherlands</i>
4.00 pm	The impact of a behavioral intervention program on inflammation in coronary patients:the Exhaustion Intervention Trial (EXIT) <i>M.Kwaijtaal¹,R.van Diest²,A.Appels^{3,1}Departments of Medical Microbiology,²Psychiatry and ³Medical Psychology,Maastricht University,The Netherlands</i>

PLENARY SESSION

Debate:*National/ European guidelines in medicine:Integration of prevention and psychosocial intervention in clinical care*
Chair: *W.Eich,Heidelberg,Germany*

The new cardiovascular disease prevention concept in Europe
K. Orth-Gomér, Karolinska Institute, Stockholm, Sweden

Consensus guidelines for the psychological treatment of hypertension
W. Linden, University of British Columbia, Vancouver, Canada

Evidence-based guidelines of the German Diabetes Association –psychosocial factors and diabetes mellitus

S. Herpertz, Department of Psychosomatic Medicine and Psychotherapy, Ruhr-University Bochum, Germany

National/regional guidelines in medicine: Useful but not a panacea
N. Schneiderman, University of Miami, Coral Gables, USA

6.30 - 7.30 pm
Turmalin 1/2

BUSINESS MEETING ECPR

7.30 – 9.30 pm
Saphir 1

EVENING LECTURES – What is going on in Germany
Public discussion

Disease management programs and psychosomatics in German health care
Chair: K. Bell, Cologne, Germany

Disease management programs and psychosomatics in view of German insurance companies
J. Bruns, Head of German Insurance Associations, Siegburg, Germany

Disease management programs and psychosomatics in the view of the German Medical Association
L. Hansen, Co-chair Kassenärztliche Bundesvereinigung, Duesseldorf, Germany

The view of psychotherapists
K. Bell, Co-Chair German Society for Psychosomatic Medicine and Psychotherapy, Cologne, Germany

Saphir 2

Workshop 1

Psychosomatic medicine and psychoanalysis (in memoriam Christel Schöttler)
Chairs: W. Milch, Giessen, Germany, L. Spring, Zurich, Switzerland, H. Friedrich, Goettingen, Germany

The impact of psychoanalytically oriented psychotherapy for the treatment of psychosomatic patients
W. Milch, Department of Psychosomatics, University of Giessen, Germany

Illness behaviour and coping processes in view of psychoanalytic theory and development
H. Friedrich, Department of Medical Sociology, University of Goettingen, Germany

Body image and self representation in the psychoanalytical theory and consequences for psychotherapy
T. Loew, Department of Psychosomatic and Psychotherapy, University, Regensburg, Germany

Rubin

Workshop 2

Concept and clinical evaluation of training in psychosomatic medicine – the German way
Chairs: P. Janssen, Dortmund, Germany, H. Menzel, Berlin, Germany

The training-program for physicians in psychosomatic medicine and psychotherapy
P.L. Janssen, German Society for Psychosomatic Medicine and Psychotherapy, Dortmund, Germany

The Academy of Psychosomatic Medicine and Psychotherapy in Berlin – medical training in a complex field
B. Palmowski, German Society for Psychosomatic Medicine and Psychotherapy (DGPM), Berlin, Germany

The position of private practice in training
B. Rütth-Behr, German Society for Psychosomatic Medicine and Psychotherapy, Hamburg, Germany

The position of the psychosomatic hospital in the medical rehabilitation landscape in Germany
G. Paar, Geldern, Germany

Training in psychosomatic medicine for primary care
I. Veit, Herne, Germany

Friday, June 25, 2004

7.30 am – 6.30 pm REGISTRATION

Radisson Foyer

8.00 – 9.00 am PARALLEL UPDATES

Saphir 1/2

Chair: G. Schüssler, Innsbruck, Austria

8.00 am Medical update: Psychosomatic diseases and the brain
D. R. Lane, University of Arizona, Tuscon, USA

8.30 am Neurovisceral integration: Two-way communication between the heart and the brain
J. Thayer, National Institute of Aging, Baltimore, USA

Rubin **Chair: U. Ehlert, Zurich, Switzerland**

8.00 am Longterm-effects of adverse childhood experiences on health
U. T. Egle, Department of Psychosomatics and Psychotherapy, University Medical School, Mainz, Germany

8.30 am Emotional (non)expression and health: a selective review of empirical findings
A. Vingerhoets, Tilburg University, Tilburg, The Netherlands

9.00 – 10.45 am SYMPOSIA S 9 – 11

S 9 Invited Symposium: Psychosomatic genetics

Saphir 1/2

Chairs: P. Propping, Bonn, Germany, N. Schneiderman, Miami, USA

9.00 am Psychosomatics and genetics: A good mating
E. De Geus, Department of Biological Psychology, Faculty of Psychology and Education, Vrije Universiteit, Amsterdam, The Netherlands

9.30 am Gene-environment interactions: Implications for psychosomatic medicine
R. B. Williams, Duke University Medical Center, Durham, NC, USA

10.00 am Influence of early body experiences on gene expressions
M. Meaney, Montreal, Canada

10.30 am Discussant: P. Propping, Bonn, Germany

S 10 Gender aspects: Social stress and stress protection in women

Turmalin 1/2

Chairs: M. Chesney, Bethesda, USA, K. Orth-Gomer, Stockholm, Sweden

9.00 am Role of oxytocin in antistress and wellbeing
K. Uvnäs-Moberg, Karolinska Institute, Stockholm, Sweden

9.25 am Attachment and pair bonds in tree shrews: Proximate causes and physiological consequences
D. von Holst, Department of Animal Physiology, University of Bayreuth, Germany

9.50 am Effects of romantic partner interaction on psycho-biological stress-protection in women
B. Ditzen, I. Neumann, G. Bodenmann, R. Turner, U. Ehlert, M. Heinrichs, University of Zurich, Clinical Psychology & Psychotherapy, Zurich, Switzerland

10.15 am Discussant: M. Chesney, NIH, Bethesda, USA

S 11 Improving communication: The patient/physician relationship

Rubin

Chairs: G. Ancane, Riga, Lithuania, D. Lipsitt, Brookline, USA

9.00 am Improving communication: The patient physician relationship
D. A. Drossman, Center for Functional GI and Motility Disorders, University of North Carolina, Chapel Hill, USA

9.25 am Teaching primary care physicians communication and treatment skills for patients presenting with functional disorders
P. Fink, The Research Unit for Functional Disorders, Psychosomatics and C- L Psychiatry, Aarhus University Hospital, Aarhus, Denmark

9.50 am Which communication skills program would you buy? Or: What is good communication and can it be taught?
W. Langewitz¹, M. Nübling², H. Weber¹, C. Kindler³,¹Dept. of Psychosomatic Medicine, ²Department of Anaesthesia, University Hospital Basel, Switzerland, ³Society for Empirical Counselling, Freiburg, Germany

10.15 am The evolving doctor-patient relationship: Effect on medical practice
D. Lipsitt, Harvard Medical School, Brookline, MA, USA

10.30 am Balint groups help improve the physician-patient interaction

E. Petzold, Department of Psychosomatic Medicine, RWTH Aachen, Germany

10.45 – 11.00 am COFFEE BREAK
Hall

11.00 am – 12.15 pm PLENARY SESSION
Saphir 1/2 **Chairs:***A.Appels,Maastricht, The Netherlands, W.Langewitz,Basel,Switzerland*

11.00 am Invited lecture:Psychobiological processes in coronary heart disease
A.Stepto, University College London, UK

11.30 am Award of the Gustav Carus Foundation,Zurich,Switzerland
Introduction: A. Scholz, Dresden, Germany

11.40 am CARL-GUSTAV-CARUS-LECTURE:Educating physicians to heal as well as cure:Psychosomatic medicine in the medical school curriculum
D. H. Novack, Associate Dean of Medical Education, Drexel University College of Medicine, Philadelphia, USA

12.15 – 1.30 pm LUNCH SYMPOSIUM:DEPRESSION (LILLY/BOEHRINGER)
Saphir 1/2 **Chair:***F.Creed,Manchester,UK*

1.30 – 3.00 pm SYMPOSIA S 12 – S 14
Saphir 1/2 **Invited symposium – Complementary Medicine**
Chairs:*F.Lamprecht,Hanover,Germany,A.Stepto,London,UK*

1.30 pm Psychosomatic and complementary medicine:Alternative pathways to integrative medicine.
M. A. Chesney, National Center for Complementary and Alternative Medicine, NIH, Bethesda, Maryland, USA

1.55 pm Complementary medicine and orthodox medicine:What are the differences in clinical practice and the view of consumers
A.Furnham, Department of Psychology, University College London, UK

2.20 pm Is acupuncture an effective treatment method?
S. Willich, Department of Social Medicine, Charité, Berlin, Germany

2.35 pm Methodological challenges in homeopathy research
H. Walach, University of Freiburg, Germany

S 12 Eating disorders
Rubin **Chairs:***W.Herzog,Heidelberg,S.Herpertz,Bochum,Germany*

1.30 pm The neural correlates of eating disorders:An fMRI perspective
H. C. Friederich, R. Uher, L. Campbell, J. Treasure, Institute of Psychiatry, King's College, London, UK

1.45 pm First results of a program for patients with binge-eating disorder *S. Zipfel, Department of Psychosomatic Medicine and Psychotherapy, University of Tuebingen, Tuebingen, Germany*

2.00 pm Short-term cognitive behavioral treatment does not improve outcome of a comprehensive very-low-calorie diet program.
M. De Zwaan, Department of Psychosomatics and Psychotherapy, University of Erlangen, Germany

2.15 pm Psychosomatic and genetic variables of obesity – a multicenter study
S. Herpertz, R. Kielmann, Department of Psychosomatic Medicine and Psychotherapy, Ruhr-University Bochum, Germany

2.30 pm Emotional awareness and social anxiety in obese patients waiting for a gastric banding surgery
W. Charry, H. Campelli, S. Bydlowski, J. M. Chevallier, S. M. Consoli, Department of C-L Psychiatry, Georges Pompidou European Hospital, Paris, France

2.45 pm Internet communication:New kind of self-help improves access to psychotherapy for eating disorders
P. Leiberich¹, J. Nedoschill¹, K. Nickels¹, K. Tritt¹, C. Laahmann¹, T. Loew¹, ¹Department of Psychosomatics and Psychotherapeutic Medicine, University of Regensburg, Germany, ²Department of Child and Youth Psychiatry, University of Erlangen-Nürnberg, ³Inntalklinik Simbach, Hospital for Psychosomatic Medicine, Germany

S 13 Aetiopathogenesis in somatisation disorders:
The irritable bowel syndrome*Chair:M.Dumitrascu,Cluj,Rumania,P.Enck,Tuebingen,Germany*

1.30 pm Brain imaging in gastrointestinal disorders
P. Enck, Department of Surgery, University of Tuebingen, Medical Center, Tuebingen, Germany

1.50 pm Brain-gut interactions in irritable bowel syndrome
S. Fukudo, Department of Behavioral Medicine, Tohoku University Graduate, School of Medicine, Sendai, Japan

2.15 pm Irritable bowel syndrome in twins: Heredity and psychological factors both contribute to its development
B. Tomenson, F. Creed, Psychological Medicine Research Group, University of Manchester, UK

2.35 pm Transcultural and gender differences in IBS
D. L. Dumitrascu, University of Medicine and Pharmacy Cluj, Romania, S. Holtmann, Essen, Germany

S 14 **Psychosomatics in the life span**
*HU 2014** **Chairs: U. Egle, Mainz, Germany, W. v. Zelst, Amsterdam, The Netherlands**

1.30 pm Body image and self-regulatory capacities in traumatized patients
M. Sack, B. Jäger, Department of Psychosomatic Medicine and Psychotherapy, Hanover Medical School, Germany

1.50 pm Career determinants of young physicians - results of a longitudinal study
B. Buddeberg-Fischer, R. Klaghofer, C. Buddeberg, Department of Psychosocial Medicine Zurich, Switzerland

2.10 pm Evidence for resiliency in old age
G. Schneider, G. Drieschel, A. Kruse, H.G. Nehen, G. Heuft, Department of Psychosomatics and Psychotherapy, University Hospital Muenster; Muenster, Germany, Department of Gerontology, University Heidelberg, Heidelberg, Germany, Geriatric Hospital of the Elisabeth-Hospital Essen, Essen, Germany

2.30 pm Posttraumatic stress disorder in the elderly
W.H. Van Zelst, VU University Medical Center, Amsterdam, The Netherlands

- **Please note: The Session will take place in the Humboldt-University, located within 5 minutes walking distance**

1.30 - 5.30 pm **SATELLITE CONFERENCE I DERMATOLOGY**
Turmalin 1/2 **EUROPEAN SOCIETY OF DERMATOLOGY AND PSYCHIATRY**
Chairs: U. Gieler, Giessen, Germany, J. de Korte, Amsterdam, The Netherlands, F. Poot, Brussels, Belgium

1.30 pm An initial clinical study of an international disease-management programme in patients with psoriasis
J. de Korte, Amsterdam, The Netherlands

2.00 pm Acceptance of the disease in psoriasis patients
A. Zalewska, J. Miniszewska, J. Chodkiewicz, Poland

2.30 pm Depression and anxiety in dermatologic patients
L. Tomás Aragonés, Spain

3.00 – 3.30 pm **COFFEE BREAK**

3.30 pm Atopic dermatitis – experience with psychotherapy
M. Selerova, Czech Republic

4.00 pm Analogic tools in psychosomatic dermatology
F. Poot, Brussels, Belgium

4.30 pm Attitudes of patients with chronic skin diseases towards psychotherapeutic treatment – an empirical study
G. Schmid-Ott, Germany

5.00 pm Results of the German multi center study of atopic dermatitis group therapy program
U. Gieler, J. Kupfer, G. Schmid-Ott, Germany

3.00 – 4.00 pm **POSTER SESSION 1 & COFFEE BREAK**
Hall **POSTER 1 – 80**

1 Anxiety and depression in ulcerative colitis and ileal pouch anal anastomosis
W. Häuser, University Medical School, Saarbruecken, Germany

2 Comparison between major depressive disorder & hwabyung (culture bound syndrome) using the SCL-90-R
Jongwoo Kim, Sunyong Chung, Junghye Kwon, Dongkun Park, Leeheon Kang, Minsoo Lee, Oriental Neuropsychiatry in Kyunghee University, Psychology & Psychiatry in Korea University, Seoul, Korea

3 Posttraumatic embitterment disorder
M. Linden, K. Baumann, B. Schippan, Research Group Psychosomatic Rehabilitation Charité-Teltow, Berlin, Germany

4 Mental health impact of war and violence
J. Lindert, M. Blettner, F. Lamott, H. Traue, IMBEI, University of Mainz, Germany

5 The use of diagnostic criteria for psychosomatic research in medical settings

G. A. Fava, L. Mangelli, F. Ottolini, N. Sonino, Department of Psychology, University of Bologna, Italy, Department of Psychiatry and Mental Health, University of Modena and Reggio Emilia, Modena, Italy, Department of Statistical Sciences and Department of Mental Health, University of Padova, Italy

6 Prevalence of depression among internal medicine inpatients at a general hospital: Preliminary results

A. Cordero, A. Conejo, M. Lozano, J. Ramos-Brieva, E. Ochoa, J. Saiz, J. Sabán, Services of Psychiatry and Internal Medicine, Hospital, Madrid, Spain

7 Disease-related determinants of anxiety and depression in chronic liver disease

W. Klein, Medical Clinic I, Klinikum Saarbrücken, Saarbrücken, Germany

9 Can guidelines improve the diagnosis and management of major depression in the general hospital?

L. Michaud, Institute of Social and Preventive Medicine, University of Lausanne, Switzerland

10 Distinct P300 cortical current density patterns in DMS patients as compared with schizophrenic patients

C. Papageorgiou, L. Lykouras, K. Kountoungelos, G. N. Christodoulou, Department of Psychiatry, Eginition Hospital, University of Athens, Greece

11 Affect structures in resumes of psychosomatic inpatients

K. Petrowski, Clinic for Psychotherapy, Psychosomatic and Medical Psychology, Dresden, Germany

12 Evaluation and development of a computer adaptive test for anxiety (A-CAT)

M. Rose, J. Becker, H. Fliege, O. B. Walter, R. Kocalevent, J. Bjorner, B. F. Klapp, Department of Psychosomatic Medicine, Charité University Medicine, Campus Mitte, Berlin, Germany

13 Anxiety and depression: Comparison of tracheotomised and intubated patients of an intensive care unit

P. Saur, S. Gatzert, C. Herrmann-Lingen, D. Kettler, Department of Anesthesiology, Emergency- and Intensive Care Medicine, University of Goettingen, Goettingen, Germany

14 Simultaneous investigation of confounding variables predicting results of dexamethasone suppression

N. C. Schommer, B. Schulz-Ratei, S. Röpke, P. Schlattmann, I. Heuser, Department of Psychiatry, Charité – University Medicine Berlin – Campus Benjamin Franklin, Berlin, Germany

15 Joint hypermobility syndrome as a new biological marker of fear

L. Sperry, J. Gago, A. Bulbena, G. Pailhez, D. Córcoles, Psychiatry Department, Hospital del Mar, Barcelona, Spain

17 Alexithymia relation to increased sympathetic activity of autonomic heart rate control

M. Beresnevaite, R. Raugaliene, D. Vasiliauskas, A. Krisciunas, V. Grizas, L. Leimoniene, Cardiac Rehabilitation Laboratory, Kaunas University of Medicine Institute of Cardiology, Clinic of Rehabilitation, Kaunas Medical University Hospital, Kaunas, Lithuania

18 Affective processing in reactive depressive patients – a study with fMRI

P. Georgiewa, Department of Psychosomatic Medicine and Psychotherapy, Charité, Berlin, Germany

19 Blood coagulation and mental stress

S. Kunzendorf, D. Benninghoven, C. Harms, A. Ripke, G. Jantschek, Department of Psychosomatics, UK-SH, Campus Luebeck, Germany

21 Are life goal patterns associated with mental and physical health?

M. Mueck-Weymann, K. Petrowski, P. Joraschky, T. Gottschalk, K. Poehlmann, Department of Psychosomatic Medicine, TU Dresden, Germany

22 Autonomic stress reactivity in patients with borderline personality disorder and healthy controls

U. M. Nater, Institute of Psychology, Clinical Psychology & Psychotherapy, University of Zurich, Switzerland

23 Cerebral blood flow during vagus nerve stimulation

P. Neu, Department of Psychiatry and Psychotherapy Charité Campus Benjamin Franklin, Berlin, Germany

24 Mind-body coherence: the intermediary 0.15 Hz rhythm band during autogenic training (AT)

V. Perlitz, RWTH Aachen, Germany

25 Pain perception, hypnosis and depersonalization - a study with fMRI

C. H. Röder ¹, C. Morawetz ^{1,2}, V. van de Ven ³, G. Overbeck ¹, D. E. J. Linden ^{4,5,1}, Department of Psychosomatic Medicine and Psychotherapy, Johann-Wolfgang-Goethe-University Frankfurt, Germany, ²Department of Psychology, University of Klagenfurt, Austria, ³Department of Cognitive Neuroscience, Faculty of Psychology, University of Maastricht, The Netherlands, ⁴School of Psychology, University of Wales, Bangor, USA, ⁵Max Planck Institute for Brain Research, Frankfurt, Germany

26 Stressful life events and hyper-prolactinemia: A controlled study

C. Ruini, Affective Disorders Program, Department of Psychology, University of Bologna, Italy

27 Impact of positive and negative incidents on stress system activity in patients with SLE

C. Schubert, Department of Medical Psychology and Psychotherapy, University Hospital Innsbruck, Innsbruck, Austria

28 Does depression modulate autonomic cardiac control?

M. Siepmann, M. Agelink, P. Joraschky, M. Rebensburg, K. Poehlmann, M. Mueck-Weymann, Department of Psychosomatic Medicine, TU Dresden, Dresden, Germany

29 Effects of trait anger and salt sensitivity on cardiovascular and cortisol stress reactivity in young men

M. Wagner, K. Buchholz, C. Weber, H.-C. Deter, Department of Psychosomatic Medicine and Psychotherapy, Charité Campus Benjamin Franklin, Berlin, Germany

30 Psychological determinants of SNS response to psychosocial stress in rheumatoid arthritis

W. Zak, W. Samborski, L. Torliński, R. Ardaba, E. Koacz, Department of Clinical Biochemistry, University of Medical Sciences in Poznań, Poland

31 Post stroke depression

A. C. Carter, St. Charles Hospital and Rehabilitation Center, New York, USA

32 Psychosocial care of elderly people by general practitioners – where are the problems?

K. Fritzsche, C. Schultz, H. Sandholzer, U. Brucks, M. Cierpka, H.-C. Deter, M. Härter, C. Höger, R. Richter, B. Schmidt, Department of Psychosomatic Medicine, Freiburg, Germany

33 Delayed wound healing and emotional trauma

M. Kütemeyer, R. Krein, St. Agatha's Hospital, Psychosomatic Department, Cologne, Germany

34 Exercise planning and strategy usage in young, middle-aged, and older rehabilitation patients

J. P. Ziegelmann, S. Lippke, F. Merten, Free University Berlin, Department of Health Psychology, Berlin, Germany

35 General practitioners consultation

G. J. Dekker, Center for Psychosomatic Diseases, Eikenboom, Zeist, The Netherlands

36 Experiences of family members in the intensive care unit compared with expectations of the staff

H. Myhren, O. Ekeberg, I. Langen, O. Stokland, Ullevål University Hospital, Oslo, Norway

37 Evaluation of a questionnaire to assess the quality of physician-patient interaction

K. G. Müller, C. Bieber, K. Blumenstiel, A. Richter, D. Eisenbeiß, S. Wilke, W. Eich, University of Heidelberg, Department of Internal Medicine II, Heidelberg, Germany

38 Symptoms of post-traumatic stress disorder related to cardiac surgery

V. Köllner, F. Einsle, S. Krauß, M. Knaut, K. Matschke, P. Joraschky, Department of Psychosomatic Medicine, Blietal Kliniken, Blieskastel, Germany

39 Heart rate variability biofeedback

M. Mueck-Weymann, K. Poehlmann, P. Joraschky, Department of Psychosomatic Medicine, TU Dresden, Dresden, Germany

40 Clinical pertinence of drug induced autonomic dysfunction

M. Mueck-Weymann, K. Poehlmann, M. Siepmann, M. Agelink, P. Joraschky, Department of Psychosomatic Medicine, TU Dresden, Dresden, Germany

41 Communication skills training for medical students

I. Muehlinghaus, W. Burger, U. Schwantes, Reformstudiengang Medizin, Universitätsmedizin Berlin, Germany

II.

43 Results of the prospective psychological evaluation five years after surgical obesity therapy

A. Benecke, M. Schowalter, C. Hoog, Institute of Psychotherapy and Medical Psychology, Würzburg, Germany

44 Are there early predictors of a good or bad outcome in the course of inpatient or day clinic treatment of anorexia nervosa?

A. Zeeck, A. Hartmann, Department of Psychosomatics and Psychotherapeutic Medicine, University of Freiburg, Germany

46 Video confrontation with body image in the treatment of bulimics and anorexics

E. Geissner, Psychosomatic Hospital Roseneck, Prien and University of Munich, Department of Psychology, Munich, Germany

47 Negative emotions are correlated with leptin levels and autonomic arousal in obese women and men

N. Messerli, M. Hofer, K. Laederach-Hofmann, Clinic for Eating Disorders and Psychosomatics, Psychiatric Outpatient Department, Bern, Switzerland

48 Motivational factors in psychotherapy of eating disorders

P. Sala, Siwiak, M. Kobayashi, Department of Neurosis, Institute of Psychiatry & Neurology, Warsaw, Poland

49 Patients with eating disorders – indication for an inpatient 10-weeks closed group setting

C. Thiele, A. Konnak, W. Keller, Department of Internal Medicine and Psychosomatics, Kliniken im Theodor-Wenzel-Werk, Berlin, Germany

50 Comparing computer-assisted interview diagnoses to clinical judgement

J. Becker, Department of Psychosomatic Medicine, Charité Berlin, Berlin, Germany

51 Health anxiety, healthcare utilization and somatization among outpatients in CBT

G. Bleichhardt, Department of Clinical Psychology, University of Mainz, Germany

52 Cumulated fatigue and shyness

A. Kulik, L. Szewczyk, Department of Clinical Psychology of Children and Adolescents, Catholic University of Lublin, Poland

53Cumulated fatigue among teenagers in Poland

A. Kulik, L. Szewczyk, Department of Clinical Psychology of Children and Adolescents, Lublin, Poland

54Sigmund Freud's forgotten diagnostic manual

M. Kütemeyer, St. Agatha's Hospital, Psychosomatic Department, Cologne, Germany

55Challenging doctor-patient encounters and somatoform disorders:A pilot study

K. A. Leiknes, A. Finset, D. R. Lipsitt, U. F. Malt, Department of Psychosomatic and Behavioral Medicine, Rikshospitalet, University of Oslo, Oslo, Norway

56Transcultural aspects of somatization in Turkey:a study of 70 cases

M. Özkan, Istanbul Medicine Faculty, Istanbul, Turkey

57Pathogenic beliefs in patients with somatoform disorders

I. Sammet, T. Bohn, Department of Psychosomatics and Psychotherapy, University of Goettingen, Goettingen, Germany

59Anxiety and depressive symptomatology in patients with coronary heart disease (CHD)

B. Alevizos, C. Papageorgiou, E. Alevizos, Department of Psychiatry, Athens University, Eginition Hospital, Athens, Greece

60The role of spiritual history after acute myocardial infarction in the Hungarian population

R. Baranyai, G. Bakos, P. Balog, M. S. Kopp, Institute of Behavioural Sciences, Semmelweis University Budapest, Hungary

61Depressive disorder and lack of a close confidant are associated with younger age at first MI

C. Dickens, Department of Psychiatry, Manchester University, UK

62Association between anxious trait and lipidemic and novel markers of cardio-vascular disease (CVD) and life style behaviours in a population free of CVD

C. Papageorgiou¹, D. Panagiotakos², C. Pitsavos², E. Tsetsekou², C. Chrysohou², G. N. Christodoulou¹,¹Department of Psychiatry, Eginition Hospital, University of Athens, Athens, Greece,²Department of Cardiology, Hippocraton Hospital, University of Athens, Athens, Greece

63Psychiatric and psychosocial outcome of cardiac surgery:A prospective 12-month follow-up study

H. B. Rothenhäusler, B. Grieser, G. Nollert, H. P. Kapfhammer, Department of Psychiatry, University of Medicine of Graz, Austria

64The impact of ICD discharges,attachment styles and social support on anxiety and depression

U. Simson, C. Perings, C. Schneider, M. Franz, Klinisches Institut für Psychosomatische Medizin u. Psychotherapie, Universitätsklinikum Duesseldorf, Germany

66Perception of stress:a statistical infarction risk factor

M. Svitavsky, Germering, Germany

67Mood and the heart:The link between depression and cardiovascular disease in women

R. C. Friend, UCLA-HGHMC, Newport Beach, California, USA

68Low socioeconomic status as a risk factor of coronary artery disease

M. Skrzypek, Department of Medical Sociology, Skubiszewski Medical University,Lublin, Poland

69Special psychological features in families of children with hyperventilation syndrome

M. V. Abalakina, I. A. Larkova, I. P. Briazgounov, Scientific Center of Child Health, Moscow, Russia

70The separation-individuation process in adolescents suffering from bronchial asthma

K. Schier, A. Laczynska, Faculty of Psychology, Warsaw University, Warsaw, Poland

71Illness impact and well-being in psoriasis patients do not relate to illness severity

A. Vingerhoets, Tilburg University, Tilburg, The Netherlands

72Male RA patients with alexithymia report more self-efficacy and better physical health

A. Finset, University of Oslo, Norway

73The pictorial representation of self measure and illness revised (PRISM-R):Measuring treatment outcome in whiplash patients

A. Vingerhoets, Tilburg University, The Netherlands

74Fibromyalgia – psychosocial risk factors and predictors of health care utilization in a non-therapeut

W. Häuser, City Hospital Saarbruecken, Center for Pain therapy, Saarbruecken, Germany

75Illness perceptions in fibromyalgia:a comparative study

V. Santos, F. Madeira, A. Rei, F. Alte da Veiga, M. Quartilho, Coimbra University Hospitals, Department of Psychiatry, Coimbra, Portugal

76Lack of psychological mindedness in men with coronary heart disease

I. Nyklicek, J. Denollet, Tilburg University, The Netherlands

77Depressive mood in coeliac disease patient is associated with a strict gluten free diet

M. C. Dolleans, E. Grosdidier, D. Rault, C. Cellier, S. M. Consoli, Department of C-L Psychiatry, Georges Pompidou European Hospital, Paris, France

78 Psychological distress and psychiatric comorbidity in patients with ulcerative colitis

K. H. Janke, Department of Internal Medicine I, University Hospital Tuebingen, Germany

79 Rating of psychosocial stress in patients with inflammatory bowel disease

S. Kunzendorf, D. Benninghoven, K. Straubinger, G. Jantschek, Department of Psychosomatics, UK-SH, Campus Lübeck, Germany

80 Psychiatric disorders and functional GI disorders (FGID): Role of alexithymia and psychopathology *P. Porcelli, IRCCS De Bellis Hospital, Castellana Grotte, Bari, Italy*

4.00 – 5.30 pm SYMPOSIA S 15 – S 18

S 15

Saphir 1

Psychosocial interventions – are they effective in clinical cardiovascular care

Chairs: *J. Denollet, Tilburg, The Netherlands, C. Herrmann-Lingen, Goettingen, Germany*

4.00 pm

Psychosocial interventions: Are they effective in clinical cardiovascular care?

N. Schneiderman, University of Miami, Coral Gables, Florida, USA

4.25 pm

Effects of a behavioral intervention program on exhaustion in angioplasty patients

A. Appels, Department of Medical Psychology, Maastricht, The Netherlands

4.50 pm

Effects of a multimodal behavioural intervention on myocardial perfusion in patients with CHD

C. Albus, P. Theissen, R. Griebenow, M. Hellmich, P. Son, B. Wilhelm, H. Schicha, K. Köhle, Department of Psychosomatics and Psychotherapy, Department of Nuclear Medicine, Clinic II of Internal Medicine, Department of Medical Statistics, University of Cologne, Germany

5.15 pm

Discussant: *W. Boks, Berlin, Germany*

S 16

Rubin

Psychoneuroimmunological aspects of chronic diseases

Chairs: *K. Vedhara, Bristol, UK, G. Schmidt-Ott, Hanover, Germany*

4.00 pm

Stress induced changes of cytokines of T lymphocytes in atopic dermatitis considering Ig E levels

G. Schmid-Ott, Department of Psychosomatic Medicine, Hanover Medical School, Hanover, Germany

4.15 pm

Psychoneuroimmunology and somatoform disorders of the gastrointestinal tract

S. Eisenbruch, A. Lucas, S. Gesing, K. Straßburger, A. Pietsch, U. Braun-Lang, K. Gilani, G. Holtmann, M. Schedlowski, University Clinic of Essen, Department of Medical Psychology & Department of Gastroenterology, Essen, Germany

4.30 pm

Psychoneuroimmunology and cardiovascular disease: Glucocorticoid sensitivity of subjects with increased cardiovascular risk

P. Wirtz, U. Ehler, Department of Clinical Psychology and Psychotherapy, University of Zurich, Switzerland

4.45 pm

Stress perception, inflammation and chronic diseases

P. C. Arck, M. Rose, E. Peters, H. Fliege, B. F. Klapp, PNI Research Group, Charité Campus Virchow & Dpt. of Internal Medicine and Psychosomatics, Charité Campus Mitte, Berlin, Germany

5.00 pm

The role of psychological distress in wound healing: The case of diabetic foot ulcers

K. Vedhara, D. Tallon, L. Gale, E. Dougan, A. Strobe, L. Mudge, J. Weinman, N. Cullum, MRC Health Services Research Collaboration, University of Bristol, UK

PAPER SESSIONS

S 17

Jade 1/2

Psychosomatic aspects in bronchial asthma and lung function

Chairs: *Y. Ago, Tokyo, Japan, T. Ritz, Hamburg, Germany*

4.00 pm

Central nervous system representation of dyspnea: clinical findings and perspectives

von Leupoldt, Psychological Institute III, University of Hamburg, Germany

4.20 pm

Practice of psychosomatic treatment for bronchial asthma in Japan

M. Hashizume, Y. Nakai, Y. Ago, Department of Psychosomatic Medicine, Kansai Medical University Bunkyo Gakuin University, Osaka, Japan

4.40 pm

Breathing training and biofeedback as adjunctive treatments in asthma

T. Ritz, Psychological Institute III, University of Hamburg, Germany

5.00 pm

A randomised controlled trial of meditation for asthma: new insights into the nature of meditation

R. Manocha, School of Womens' and Childrens' Health, Faculty of Medicine, University of NSW, Sydney, Australia Discussant: *B. Dahme, Hamburg, Germany*

S 18

Saphir 2

Psychosomatic inpatient therapy

Chairs: *S. Sivik, Gothenborg, Sweden, B. Klapp, Berlin, Germany*

- 4.00 pm Body image changes in patients with psychosomatic disorders during in-patient psychotherapy
K. Pöhlmann, University Hospital of Psychotherapy and Psychosomatic Medicine, Dresden, Germany
- 4.15 pm Inpatient psychotherapy: influence of childhood adversities and coping with conflict on outcome
R. Nickel, U. T. Egle, Department of Psychosomatic Medicine and Psychotherapy, Johannes Gutenberg-University, Mainz, Germany
- 4.30 pm Body images in patients with eating disorders and their families: A computer-assisted approach during inpatient therapy
D. Benninghoven, E. Jürgens, S. Kunzendorf, G. Jantschek, Department of Psychosomatic Medicine, University of Schleswig-Holstein, Campus Luebeck, Germany
- 4.45 pm The importance of different therapies in a psychotherapeutic day clinic
J. von Wietersheim, H. Kessler, Department of Psychosomatic Medicine and Psychotherapy, University of Ulm, Germany
- 5.00 pm Body image examinations during inpatient psychotherapy: Two-years follow-up study of 495 patients treated at the Institute of Psychosomatic Medicine in Gothenburg, Sweden
T. Sivik, Institute of Psychosomatic Medicine, Gothenburg, Sweden
- Workshop 3**
*HU 2014** **The attachment – theory and psychosomatic diseases**
Chairs: B. Strauss, Jena, Germany, C. Scheidt, Freiburg, Germany
- Attachment: The missing developmental link in coping theories?
B. Strauss, Institute of Medical Psychology, University of Jena, Germany
- Attachment style and glycemic control in type 1 diabetes mellitus
C. Attale, N. Guedeney, A. Sola, G. Slama, N. Dantchev, S.M. Consoli, Department of C-L Psychiatry, Georges Pompidou European Hospital Paris, France
- Attachment representation and therapeutic intervention in eating disorders
E. Becker-Stoll, Ludwig Maximilian University Munich, Germany
- Adult attachment representation and referential activity in patients with somatoform disorders
N. Waller, E. Waller, C.E. Scheidt, Department of Psychosomatic Medicine and Psychotherapy, University Freiburg, Germany
- Workshop 4**
*HU 2091** **Health psychological aspects in diagnosis and disease management**
Chairs: R. Schwarzer, Berlin, Germany, A. Vingerhoets, Tilburg, The Netherlands
- The Prism-R: A pilot-study among different patient groups
A. Vingerhoets, Tilburg University, Tilburg, The Netherlands
- Physical exercise adherence in rehabilitation patients
R. Schwarzer, Department of Psychology, Free University, Berlin, Germany
- Neuropsychological assessment of attention and working memory in patients with acute whiplash trauma
L. Bindslev, The Research Unit for Functional Disorders, Aarhus University Hospital, Aarhus, Denmark
- Self-efficacy in the process of rehabilitation: effects and determinants
B. Dohnke, B. Knäuper, W. Müller-Fahmow, Charité Universitätsmedizin Berlin/Campus Charité Mitte, Rehabilitationswissenschaften, Berlin, Germany
- The role of social support in adherence processes following a rehabilitation treatment
S. Lippke, J.P. Ziegelmann, F. Merten, Department of Psychology, Free University of Berlin, Germany
- Workshop 5**
*HU 3038** **Basics II: Psychophysiology**
Chairs: G. Cardoso, Lisboa, Portugal, M. Mueck-Weymann, Dresden, Germany
- Effects of a vibroacoustic bed on physiological and psychological parameters
G. Baule, K. Groß, G. Hüther, C. Herrmann-Lingen, Department of Psychiatry, University of Goettingen, Germany
- Cardiovascular reactivity to startle stimulus depends on affective content and arousal
C. S. Weber, S. Richter, M. Wagner, H. Schaechinger, H.-C. Deter, Department of Psychosomatic Medicine and Psychotherapy, Charité Campus Benjamin Franklin, Berlin, Germany
- The effects of antidepressants on autonomic functions in healthy volunteers
M. Mueck-Weymann, P. Joraschky, K. Poehlmann, W. Kirch, M. Siepmann, Department of Psychosomatic Medicine, TU Dresden, Germany
- Workshop 6**
*HU 2028** **Medical education in psycho-social skills**
H. Schwantes, Berlin, Germany, W. Langewitz, Basel, Switzerland, (Senatssaal) D. H. Novack, Philadelphia, USA and invited students

Workshop 7
*HU 1072 **

Sense and meaning of the symptom – psychosomatic medicine today and in future

W. Schüffel, Former President ECPR 1988, Marburg, Germany, G. Christodolou, Athens, Greece, T. Leydenbach, Paris, France, T. Sensky, London, UK, T. Sivic, Gothenburg, Sweden
Soma/psyche analogy: Innovative psychosomatic research
P. H. Keller, Université Victor Segalen, Bordeaux, France

The identity of a specialist in psychosomatic care
R. Kettler, Berlin, Germany

Further invited speakers: *M. Bühring, Utrecht, The Netherlands, G. Müller, Kassel, Germany, H. Reimer, Nideggen, Germany, G. Dekker, M. Lipovsky, Zeist, The Netherlands, M. Hashizume, Osaka, Japan*

3.30 – 5.30 pm
*HU 2103 **

Philosophical discourse: Society's traces in the body – a challenge for psychosomatic research

Chairs: *E. Franke, Berlin, Germany, H. Gebauer, Berlin, Germany*

Sports and psychosomatic peculiarities
E. Franke, Institute of Sports and Science, Humboldt University, Berlin, Germany

Biographical risks of an unhealthy development – examples of individuals with doping experience
K. H. Bette, Technical University, Darmstadt, Germany

Body experience reflects social processes – a hypothesis
G. Gebauer, Institut of Philosophy, Free University, Berlin, Germany

- **Please note: The Workshops W 1 – 7 will take place in the Humboldt-University, located within 5 minutes walking distance!**

5.30 – 6.30 pm
Saphir 1

PLENARY SESSION

Debate: Short and long-term outcome of psychotherapy and psychopharmacotherapy

Chair: *H. Kächele, Ulm, Germany*

Pro Psychotherapy:

Differential long-term effects of pharmacological and psychotherapeutic intervention in affective disorders
G. A. Fava, Affective Disorders Program, Department of Psychology, University of Bologna, Italy

Pro Psychopharmaceuticals:

U. F. Malt, Rijkshospitalet, University of Oslo, Norway

7.30 pm

CONFERENCE FESTIVAL “UNDER THE BRIDGES OF BERLIN”

Saturday, June 26, 2004

7.30 am – 5.30 pm REGISTRATION

Radisson Foyer

8.00 – 9.00 am

Saphir 1/2

PARALLEL UPDATES

Chair: M. Rigatelli, Modena, Italy

8.00 am Psychopharmacological treatment of patients with psychosomatic and related disorders
U. F. Malt, Rikshospitalet, University of Oslo, Norway

8.30 am Biological findings in PTSD: Can they be changed by psychotherapy?
F. Lamprecht, Department of Psychosomatic Medicine, University Medical Center, Hanover, Germany

Rubin **Chair: A. Barbosa, Lisboa, Portugal**

8.00 am Suggestive and hypnotic techniques in general medicine: A historical approach
W. Bongartz, Dept. of Psychology, University of Konstanz, Germany

8.30 am Twenty one year follow up of patients with anorexia nervosa – what can we learn from longitudinal studies?
W. Herzog, Department of Psychosomatic Medicine, University Medical Center, Heidelberg, Germany

8.00 am – 1.00 pm SATELLITE CONFERENCE II –

Turmalin ½

MEETING OF THE 6TH BALTIC SEA CONFERENCE

The Future of Psychosomatic Medicine in the United Europe

8.00 – 8.10 am Opening
C. B. Bahnson, Kiel, Germany

8.10 – 8.30 am Chair: S. Leder, Warsaw, Poland
Kiel 1992 – Berlin 2004: The development of Baltic Sea relation in psychosomatic medicine
H. Speidel, Kiel, Germany

State of the Art and Recommendations

8.30 – 8.50 am Psychosomatic medicine in Denmark
M. Birket-Smith, Copenhagen, Denmark

8.50 – 9.10 am Psychosomatic medicine in Latvia
G. Ancane, Riga, Lithuania

9.10 – 9.40 am Psychosomatic medicine in Poland
B. Wasilewski, Warsaw, Poland

9.40 – 10.00 am Psychosomatic medicine in Germany
W. Schneider, Rostock, Germany

10.00 – 10.30 am The future of psychosomatic medicine from the viewpoint of the EU
M. Maillet, Brussels, Belgium

10.30 – 10.45 am A new electronic journal in psychosomatics and sexology
B. Wasilewski, Warsaw, Poland

10.45 – 11.15 am COFFEE BREAK

11.15 am – 12.15 pm Chairperson: C. Bahnson, Kiel, Germany
Panel Discussion
G. Ancane, S. Leder, M. Birket-Smith, W. Schneider, H. Speidel, B. Wasilewski

12.15 – 12.30 pm General Discussion

12.30 – 13.00 pm Resumee
C. Bahnson, Kiel, Germany

9.00 – 10.45 am SYMPOSIA S 19 – S 21

S 19 Diagnostic problems and effective therapy in somatization disorders on different levels.
Saphir 1/2 Chairs:P.Fink,Aarhus,Denmark,T.Sensky,London,UK

- 9.00 am The perspectives of somatization
T. N. Wise, Johns Hopkins School of Medicine and Inova Fairfax Hospital, Falls Church, USA
- 9.20 am How to diagnose and categorize somatizing patients
P. Fink, The Research Unit for Functional Disorders, Psychosomatics and C-L Psychiatry, Aarhus University Hospital, Aarhus, Denmark
- 9.40 am Factors influencing decision-making by primary care doctors in patients with somatoform disorders
T. Sensky, Imperial College, London, UK
- 10.00 am Psychosocial predictors of health-related quality of life and GP consultation in people with CLBP
P. Keeley, School of Nursing, Midwifery and Health Visiting, The University of Manchester, UK
- 10.20 am The cost-effectiveness of psychotherapy and paroxetine for severe irritable bowel syndrome
F. Creed, Department of Psychiatry, University of Manchester, UK

S 20 Psychoanalytic therapy and effects on health outcome
Rubin Chairs:M.von Rad,Munich,Germany,H.Kächele,Ulm,Germany

- 9.00 am Effectiveness of long-term psychoanalytic treatment:The practice study:Psychoanalytical long-term therapy
W. Keller, G. Rudolf, S. Stehle, R. Dilg, C. Oberbracht, T. Grande, T. Jacobsen, Department of Internal Medicine and Psychosomatics, Kliniken im Theodor-Wenzel-Werk, Berlin, Germany
- 9.30 am Munich Psychotherapy Study (MPS) – preliminary results of effective psychoanalytic long-term therapy
D. Huber, H. Brendel, G. Klug, M. v. Rad, Dept. of Psychosomatic, Psychotherapy and Medical Psychology, Technical University, Munich, Germany
- 10.00 am Course of improvement during two years in psychoanalytic and psychodynamic outpatient psychotherapy
H. Kordy, Center of Psychotherapy Research, Stuttgart, Germany
- 10.20 am Discussant:H.Kächele,Ulm,Germany

S 21 Aetiopathogenesis and therapy in essential hypertension
Jade 1/2 Chairs:J.Nyklicek,Tilburg,The Netherlands,R.Williams,Durham,USA

- 9.00 am Emotional inhibition, breath holding, and sodium-sensitive hypertension
D. E. Anderson, B. Parsons, E.J. Metter, National Institute on Aging, NIH, Baltimore, Maryland, USA
- 9.25 am Status quo of the stress reactivity concept in understanding the development of hypertension
W. Linden, University of British Columbia, Vancouver, Canada
- 9.50 am Alexithymia factors and blood pressure hyperreactivity to stressful tasks
I. Nyklicek, Tilburg University, The Netherlands
- 10.05 am Emotions, cardiovascular reactivity and blood pressure in everyday life in healthy young women
T. Schmidt, B. Schulze, F. Weidemann, Department of Epidemiology, Social Medicine and Health Systems Research, Hanover Medical University, Hanover, Germany
- 10.20 am Association between physicians' perception of hypertensive disease and actual blood pressure control
S. M. Consoli, X. Girerd, D. Thomas, P. Amouyel, A. Levy, D. Pouchain, S. Laurent, Department of C-L Psychiatry Georges Pompidou European Hospital, Paris, France
10.35 am Discussant: H. Rüddel, Trier, Germany

10.45-11.00 am COFFEE BREAK
Hall

11.00 – 12.30 am INVITED LECTURES
Saphir 1/2 Chairs:G.Cardoso,Lisbon,Portugal,W.Herzog,Heidelberg,Germany

- 11.00 am Mental disorders and associated burden in the community
H. U. Wittchen, Institute of Clinical Psychology and Psychotherapy, Technical University of Dresden and Max Planck Institute of Psychiatry, Munich, Germany
- 11.30 am Psychoendocrinological and -immunological indicators of exhaustion: Implications for psychotherapy
U. Ehler, Department of Clinical Psychology and Psychotherapy, University of Zurich, Switzerland
- 12.00 am Women's multiple stressors and atherosclerosis in women: Mechanisms and interventions

K. Orth-Gomér, Karolinska Institute, Stockholm, Sweden

12.30 - 1.30 pm **LUNCH (not included)**

1.30 – 3.00 pm **SYMPOSIA S 22 & S 24**

S 22 **The role of psychosomatic medicine and consultation/liaison**
Saphir 1 **Psychiatry in European health care system – the German experience**
 Chair: U. Egle, Mainz, Germany

1.30 pm Historical view on psychosomatic medicine in Germany
 H.-C. Deter, Department of Psychosomatics and Psychotherapy, Campus Benjamin Franklin, Charité, Berlin, Germany

1.45 pm Psychosomatic consultation/liaison service and its development
 W. Söllner, Psychosomatic Clinic, City Medical Center, Nuremberg, Germany

2.00 pm Psychiatric consultation/liaison service in Germany
 A. Dieffenbacher, Psychiatric Department, Medical Center, Herzberge, Berlin, Germany

2.15 pm The American view about the German development in psychosomatic medicine
 J. J. Strain, Mount Sinai Medical Center, New York, USA

2.30 pm Discussant: U. Malt, Rijkshospitalet, University of Oslo, Norway

S 24 **Alexithymia and other personality types triggering**
Saphir 2 **psychosomatic symptoms - update on personality constructs**
 Chairs: R. M. Bagby, Toronto, Canada, G. Overbeck, Frankfurt, Germany

1.30 pm Development of the alexithymia concept
 M. von Rad, H. Gündel, Department of Psychosomatic, Psychotherapy and Medical Psychology, Munich, Germany

1.50 pm Alexithymia: Some controversial issues and new conceptual ideas
 G. J. Taylor, University of Toronto, Toronto, Canada

2.10 pm Alexithymia – epidemiological findings
 M. Joukamaa, University of Tampere, School of Public Health, Tampere, Finland

2.25 pm Type D personality in perspective
 J. Denollet, Medical Psychology, Department of Psychology and Health, Tilburg University, Tilburg, The Netherlands

2.45 pm The development and significance of the type C personality
 C. Bahne Bahnson, Kiel, Germany

PAPER SESSIONS S 23, S 25, S 26

S 23 **Depression and anxiety in somatic diseases and effect of**
Rubin **behavioural modification in health care outcome**
 Chairs: B. Wasilewski, Warsaw, Poland, G. Christodolou, Athens, Greece

1.30 pm Factors influencing the grieving process after termination of pregnancy due to fetal abnormalities
 M. Dorsch, W. Klockenbusch, V. Arolt, A. Kersting, Medical Clinic for Psychiatry and Psychotherapy, University Hospital Muenster, Muenster, Germany

1.45 pm Depression and anxiety symptoms as integrative part of menopausal syndrome – how far anti-depressive treatment should be integrative part of the therapy
 B. W. Wasilewski, Department of Psychosomatics, Sexuality and Pathology of Interpersonal Relations, Medical Center for Postgraduate Education, Warsaw, Poland

2.00 pm Mood disorders, shyness, and social anxiety in women with Turner Syndrome
 G. Cardoso, P. J. Schmidt, R. J. Daly, N. A. Haq, L. Hanton, J. L. Ross, L. M. Nelson, D. R. Rubinow, C. A. Bondy, Behavioral Endocrinology Branch, National Institute of Mental Health, NIH, DHHS, Bethesda, Maryland, USA

2.15 pm Quality of life and body image of patients with M. Addison
 R. Kocalevent, J. Becker, M. Rose, M. Hassler, B. F. Klapp, M. Ventz, Psychosomatic Medicine, Medical Clinic, Charité University Berlin, Germany

2.30 pm Cognitive behavior therapy in generalized anxiety disorders. Results of a controlled clinical trial
 M. Linden, T. Bär, D. Zubrägel, Research Group Psychosomatic Rehabilitation Charité-Seehof, Berlin, Germany

S 25 <i>Jade 1/2</i>	Psychosocial factors in transplantation Chairs: <i>C.Buddeberg,Zurich,Switzerland,J.Frommer,Magdeburg,Germany</i>
1.30 pm	Physicians'and patients'assessment of prognosis asked before BMT compared to outcome 2 years later <i>N. Grulke, H. Bailer, W. Larbig, U. Domann, U. Prudlo, H. Kaechele, Psychosomatic Medicine and Psychotherapy, University Hospital of Ulm, Ulm, Germany</i>
1.45 pm	Quality of life 10 years after heart transplantation – status of 125 adult patients and 25 adolescents <i>W. Albert, Deutsches Herzzentrum Berlin, Germany</i>
2.00 pm	Psychic well-being and quality of life in living kidney donors and recipients <i>H.-W. Künsebeck, Department for Psychosomatic and Psychotherapy, Hanover, Germany</i>
2.15 pm	Communication with live organ donors before liver transplantation:an in-department interview study <i>M. Walter ^{1,2}, C. Papachristou ¹, G. Danzer ¹, B. F. Klapp ¹, J. Frommer ³,¹Clinic for Internal Medicine/ Psychosomatics, Charité Berlin, Berlin, Germany, ²Department of Psychiatry, University of Basel, Basel, Switzerland, ³Department of Psychosomatic Medicine and Psychotherapy, Otto-von-Guericke-University Hospital, Magdeburg, Germany</i>

S 26 <i>HU 2014*</i>	Treatment and behavioral modification in somatic diseases (diabetes,pain and oncologic diseases) Chairs: <i>H.Speidel,Kiel,Germany,A.Kiss,Basel,Switzerland</i>
1.30 pm	Suicide among cancer patients in Norway 1960 – 1999 <i>E. Hem, J. H. Loge, T. Haldorsen, Kaasa, Ø. Ekeberg, Department of Behavioural Sciences in Medicine, University of Oslo, Norway</i>
1.50 pm	Psychosomatic factors determine the quality of life and metabolic control in patient with diabetes <i>M. Rose, P. Georgiewa, H. Fliege, R. Kocalevent, P. Arck, B. F. Klapp, PsychosomaticMedicine, Charité, University Medicine Berlin, Campus Mitte, Berlin, Germany</i>
2.10 pm	Coping with Type 1 Diabetes:Results of the German Multicenter Diabetes Cohort Study <i>F. Petrak, C. Schuster ¹, U. Luka-Krausgrill ², U. T. Egle ¹, B. Kulzer ³, ¹Department for Psychosomatic Medicine and Psychotherapy and ²Counselling Centre, Johannes Gutenberg University, Mainz, ³Diabetes Clinic, Bad Mergentheim, Germany</i>
2.30 pm	Goal development as a crucial element of change maintenance in chronic pain therapy <i>K. Pöhlmann, University Hospital of Psychotherapy and Psychosomatic, Dresden, Germany</i>
	<ul style="list-style-type: none"> • Please note:The Session will take place in the Humboldt-University,located within 5 minutes walking distance
1.30 – 5.30 pm <i>Turmalin 1/2</i>	SATELLITE CONFERENCE III – Meeting of the EUROPEAN SOCIETY OFPSYCHOSOMATICS OBSTETRICS AND GYNAECOLOGY Psychosomatic medicine in obstetrics and gynaecology Chair: <i>M.Neises,Hanover,Germany</i>
1.30 pm	Current status of psychosomatic research on chronic pelvic pain in femal patients <i>F. Siedentopf, Berlin, Germany</i>
2.00 pm	Psychosomatic implications of medical and surgical abortion <i>A. Hemmerling, Berlin, Germany</i>
2.30 pm	The need of better psychosocial care for female migrants in gynaecology <i>M. David, T. Borde, Berlin, Germany</i>
3.00 pm	Importance of medical advice for women coping with hysterectomy <i>W. Kaufels, Hanover, Germany</i>
3.30– 4.00 pm	COFFEE BREAK
4.00 pm	Pregnancy and birth after the experience of child hood sexual abuse – results from a nationwide research project on affected women <i>B. Leeners, Zurich, Switzerland</i>

4.30 pm Psychosocial interventions for breast cancer patients
M. Neises, Hanover, Germany

5.00 pm Anxiety in pregnancy and preterm delivery
M. Rauchfuß, Berlin, Germany

Discussion

3.00 - 4.00 pm POSTERSESSION 2 AND COFFEE BREAK
Hall Poster:81 – 156

81The relationships between physical dysfunction and psychic disturbances in low back pain patients
G. Ancane, D. Smite, Riga Stradina University, Cesis, Latvia

82Fibromyalgia and facial expression
K. Bernardy, Bliestal Clinics, Bliestal, Germany

83The comprehensive body examination (CBE)
B. H. Bunkan, University College of Oslo, Physiotherapy Education, Oslo, Norway

84Association of psychodiagnostic parameters with pain perception of intracardiac shock discharges
K. H. Ladwig, Institute and Department of Psychosomatic Medicine, Psychotherapy and Medical Psychology, Technical University Munich, Germany

85Written information about the referral to a psychologist in a multidisciplinary pain centre is useful
G. Van Hamme, K. Vissers, J. Van Zundert, M. Puylaert, J. De Bie, Ziekenhuis Oost Limburg, Genk, Belgium

86Psychological response and survival – the prognostic value of the MAC scales with BMT patients
H. Bailer, W. Larbig, U. Domann, U. Prudlo, H. Kaechele, N. Gruhlke, Psychosomatic Medicine and Psychotherapy, University Hospital of Ulm, Ulm, Germany

87Integration of a psycho-oncological screening in the daily conference of a comprehensive cancer center
P. Heussner, Psycho-Oncology at the Cancer Center, University Clinic Rechts der Isar, Munich, Germany

88Posttraumatic stress disorder: A valid diagnosis for breast cancer patients?
A. Mehnert, Institute of Medical Psychology, University Clinic Hamburg-Eppendorf, Hamburg, Germany

89The role of self-efficacy, social support, and coping for finding meaning in cancer
N. E. Mohamed, Free University of Berlin, Germany

90Emotional and behavioural disorders in children living with a parent suffering from cancer
E. Seigneur, C. Levacher, J. M. Andrieu, A. Duboust, J. J. Altman, S. M. Consoli, Department of C-L Psychiatry Georges Pompidou European Hospital, Paris, France

91Role of ill parent's gender and educational level on children's psychosocial distress
E. Seigneur, C. Levacher, J. M. Andrieu, A. Duboust, J. J. Altman, S. M. Consoli, Department of C-L Psychiatry Georges Pompidou European Hospital, Paris, France

93Mental representations of self, lung donor and medical staff after lung transplantation – a qualitative approach to compliance
L. Goetzmann, K. Moser, E. Vetsch, E. Russi, A. Boehler, C. Buddeberg, Psychosocial Medicine, University Hospital Zurich, Zurich, Switzerland

94Global psychological stress and social support 3 years after solid organ transplantation
M. Langenbach, N. Schmeißer, K. Köhle, Department of Psychosomatics and Psychotherapy, University of Cologne, Germany

95Psychosocial risk factors before and after organ transplantation
R. Wagner-Huber, L. Götzmann, R. Klaghofer, E. Scheuer, C. Buddeberg, Department of Psychosocial Medicine, University Hospital Zurich, Switzerland

96Depression and anxiety in dermatologic patients
T. L. Aragonés, S. E. Marrón Moya, Ernest Lluch Hospital, Calatayud, Spain

98Atopic dermatitis – experience with psychotherapy
M. Selerova, NSP v Novém Jiěíni, Nov_ Jiěín, Czech Republic

100Acceptance of illness in psoriasis vulgaris patients
A. Zalewska, J. Miniszewska, Z. Juczynski, J. Chodkiewicz, A. Sysa-Jedrzejowska, Department of Dermatology, Medical University of Lodz and Health Psychology Department, Lodz, Poland

101The epidemiology of transsexualism in Poland
S. Dulko, C. Imielinski, Department of Psychosomatics, Sexology and Human Relationships Pathology, Medical Center of Postgraduate Education, Warsaw, Poland

102 The predictors of medical compliance within patients with cardiovascular diseases

D. Hendres, A. Luszczynska, E. Prisacaru, IASI, Romania

104 Attitudes and arguments of infertile couples towards advances in reproductive technology

A. Borkenhagen, H. Kentenich, Fertility Center Berlin & Frauenklinik der Charité Berlin, Berlin, Germany

105 Psychosocial care in prenatal diagnostics

A. Kersting, M. Dorsch, W. Klockenbusch, V. Arolt, Department of Psychiatry, Muenster, Germany

106 Therapeutic alliance and glycemic control in type 1 diabetes mellitus

C. Attale, S.M. Consoli, A. Sola, N. Guedeney, A.O. Horvath, L. Luborsky, G. Slama, N. Dantchev, Department of C-L Psychiatry, Georges Pompidou European Hospital Paris, France

108 Prevention and treatment of poststroke depression with mirtazapine

N. Niedermaier, E. Bohrer, K. Schulte, P. Schlattmann, I. Heuser, Department of Neurology, Klinikum Ludwigshafen, Charité University Medicine Berlin, Campus Benjamin Franklin, Department of Psychiatry, Germany

110 Use of hypnosis for treatment of bedwetting

I. P. Briazgounov, A. G. Kizeva, A. N. Mihajlov, Scientific Center of Health of Children, Moscow, Russia

111 Development of a computerized adaptive test for stress (Stress-CAT)

R. D. Kocalevent, O. B. Walter, J. Becker, H. Fliege, B. F. Klapp, J. B. Bjorner, M. Rose, Psychosomatic Medicine, Medical Clinic, Charité University Berlin, Germany

112 Complex childhood abuse, attachment disorders and health problems

A. Widera-Wysoczańska, Institute of Psychology, Clinical Department, University of Wrocław, Poland

113 The social net of psychosomatic in-patients

A. M. Lischka, Research Group of Psychosomatic Rehabilitation, Berlin, Germany

114 The contribution of narrative psychology to intrapsychic dynamics of colorectal cancer patients

R. Hargitai, University of Pécs, Institute of Psychology, Pécs, Hungary
116 Compulsive buying: Descriptive characteristics and psychiatric comorbidity of 22 cases
A. Müller, A. Silbermann, M. Kadegge-Schindler, S. Student, M. de Zwaan, Department of Psychosomatics and Psychotherapy, Friedrich-Alexander-University Hospital, Erlangen, Germany

116 Compulsive buying: Descriptive characteristics and psychiatric comorbidity of 22 cases

A. Müller, A. Silbermann, M. Kadegge-Schindler, S. Student, M. de Zwaan, Department of Psychosomatics and Psychotherapy, Friedrich-Alexander-University Hospital, Erlangen, Germany

117 Body image and eating disorders

J. Maximiano, M. Miranda, C. Tomé, T. Maia, Psychiatry Department of Amadora Sintra Hospital, Amadora, Portugal

118 Individual meaning construals and their relevance for health and well-being

B. Gruss, University Hospital of Psychotherapy and Psychosomatic, Dresden, Germany

119 Disease related worries and comorbidities determine quality of life in chronic hepatitis

W. Häuser, University Medical School, Saarbruecken, Germany

120 Quality of life in patients with acne vulgaris

L. Kotrulja, I. Sjerobabski-Masnec, M. Vurnek, Department of Dermatovenereology, Zagreb, Croatia

121 Determinants of the quality of life of patients with congenital heart disease

M. Rose, K. Köhler, F. Köhler, B. Sawitzky, H. Fliege, P. Georgiewa, B. F. Klapp, Department of Psychosomatic Medicine, Charité University Medicine, Campus Mitte, Berlin, Germany

124 Women's help-seeking behaviour in primary care: Phase 2 of a mixed methods study

M. Fiddler, Psychological Medicine Group Manchester, Manchester, UK

125 A standardized Mensendieck test (SMT)

G. K. Haugstad, T. S. Haugstad, U. Kirste, S. Leganger, U. Malt, Department of Psychosomatic and Behavioural Medicine and Oslo College, Oslo, Norway

126 Coping with a premature birth: Results of a 14-month follow-up

A. Kersting, M. Dorsch, I. Hörnig-Franz, U. Wesselmann, V. Arolt, Department of Psychiatry, Muenster, Germany

127 Domestic violence: A new, inter-disciplinary approach to support women and children

C. Moore-Schmeil, I. Harms-Wahlich, F. Koppelin, M. Lungershausen, M. Mührel, Fachhochschule Oldenburg, FB Sozialwesen, Emden, Germany

128 Gender-specific aspects of diabetes

A. Benecke, Institute of Psychotherapy and Medical Psychology, Würzburg, Germany

129 Work stress and performance among us foreign exchange traders

Nimgade, Ashok. Harvard University, Brookline, USA

130 Selective monocyte and granulocyte apheresis as a possible new treatment for Chronic Fatigue Syndrome

B. Boye, E. A. Malt, A. Heldal, A. Dahlstrøm, K. Lundin, U. F. Malt, Rikshospitalet, University of Oslo, Norway

132 Effects of psychosomatic intreatment on emotional awareness

C. Subic-Wrana, Department of Psychosomatics and Psychotherapy, University of Cologne, Germany

136 How self-regulation capacities change in the cause of in-patient psychotherapy

K. Pöhlmann, University Hospital of Psychotherapy and Psychosomatic, Dresden, Germany

138 A randomised controlled study of cognitive behavioural therapy for hypochondriasis

P. Sorensen, M. Birket-Smith, U. Wattar, I. Buemann, Copenhagen University Hospital, Bispebjerg Hospital, Copenhagen, Denmark

139 A new therapeutic intervention for psychosomatic and psychotic patients

M. Diallyna, K. Alexandropoulos, M. Markantonaki, Psychiatric Clinic, General State Hospital of Athens, Athens, Greece

141 Suicide attempt in the presence of psychiatrist: Anxiety and responsibilities

M. Diallyna, M. Markantonaki, Psychiatric Clinic, General State Hospital of Athens, Athens, Greece

142 Perception of the own body in the autobiographical narration of perpetrators of abuse

D. Dyjakon, University of Lower Silesia, Association for the Advancement of Education in Wroclaw, Poland

145 Dissociative Identity Disorder - Psychiatric fantasy or traumatic reality

S. Laure, University Clinic for Psychiatry, Graz, Austria

146 Psychodermatology in children: A study at Pendelis Hospital in Greece

A. Michopoulou, K. Myridakis, P. Emmanouil, A. Karagianni, B. Belesioti, S. Siapati, Pendelis Children Hospital, Palea Pendeli, Greece

148 Pathogenesis of somatoform vertigo syndromes

A. Eckhardt-Henn, P. Breuer, S. Bense, M. Dieterich, Department for Psychosomatic Medicine, Johannes Gutenberg University, Mainz, Germany

149 The lunar phases' influence on behaviour: Still a myth? A. Bulbena, L. Sperry, J. Castaño, R. Aceña, C. Garcia Ribera,

Psychiatry Department, Hospital del Mar, Barcelona, Spain

150 Quality of life one year after brain injury in patients and their spouses

A. Dinkel, F. Balck, University Clinics Dresden, Department of Medical Psychology, Dresden, Germany

151 Stress-level and prediction of treatment outcome for patients with chronic tinnitus

F. Fischer, Department of Internal Medicine - Psychosomatics Charité University Medicine Berlin, Germany

152 The raphe pallidus nucleus is activated during psychological stress-induced hyperthermia in rats

Takakazu Oka, Kae Oka, Sadatoshi Tsuji, Department of Neurol., University of Occupational and Environmental Health, Kitakyushu, Japan

154 Panic Attacks: Weather or not?

A. Bulbena, Psychiatry Department, Hospital del Mar, Barcelona, Spain

155 Effects of functional relaxation on patients with migraine

W. H. Krause, K. Lohmann, D. Höger, Clinic of Psychosomatic Medicine Königstein/Ts., Faculty of Psychology University of Bielefeld, Germany

156 Repertory grid based assessment of individual stress concepts

O. B. Walter, M. Schmidt, H. Fliege, M. Rose, Department of Psychosomatic Medicine, Charité Campus Mitte, Berlin, Germany

4.00 - 5.30 pm WORKSHOP

Workshop 8

SYMPOSIA S 27 – S 29

S 27
Rubin

**Design and effects of psychosomatic therapy
studies in inflammatory bowel disease**
Chairs: G.Jantschek, Luebeck, Germany, S.Levenstein, Rome, Italy

4.00 pm Psychologically-oriented intervention studies in IBD: perspectives from clinical stress research
S. Levenstein, Rome, Italy

4.15 pm Depression in inflammatory bowel diseases (IBD) – a risk factor for recurrence and the need for integrated
psychosomatic care
G. Moser, Gastroenterologic Department, University Medical Center, Vienna, Austria

4.30 pm Health care utilisation in patients with Crohn's disease and effects of a psychosomatic treatment
*H.-C. Deter, Department of Psychosomatic and Psychotherapy, Campus Benjamin Franklin, Charité, Berlin,
Germany*

4.45 pm The impact of psychobiological factors in inflammatory bowel disease
*B. Boye, S. Leganger, K. Moekleby, A. Heldal, K. A. Leiknes, A. Dahlstrom, S. Wojniusz, S. Blomhoff, T.
Hausken, J. Jahnsen, M. Vatn, K. Lundin, I. Wilhelmsen, G. Jantschek, U. F. Malt, Universities Oslo and
Bergen/Norway and Luebeck/Germany*

5.00 pm Psychobiological factors in inflammatory bowel disease – the design of the Norwegian – German
Multicenter Stress Intervention Study
*G. Jantschek, B. Boye, S. Leganger, K. Moekleby, A. Heldal, K. A. Leiknes, A. Dahlstrom, S. Wojniusz, S.
Blomhoff, T. Hausken, J. Jahnsen, M. Vatn, I. Wilhelmsen, K. Lundin, U. F. Malt, Universities Luebeck/Germany
and Oslo and Bergen/Norway*

5.15 pm Discussant: S. Levenstein, Rome, Italy

S 28
Jade 1/2

Cardiological psychosomatics II
Chair: S.Consoli, Paris, France, A.Appels, Maastrich, The Netherlands

4.00 pm Coping strategies and their influence on emotional distress and quality of life in patients one year after
implantation of a cardioverter-defibrillator (ICD)
*K. Fritzsche, F. Forster, A. Schweickhardt, C. Herrmann-Lingen, H. Kanwischer, A. Drinkmann, S. Rabung, G.
Bergmann, Department of Psychosomatic Medicine, Freiburg, Germany*

4.15 pm Association of psychodiagnostic parameter with pain perception of intracardiac shock discharges – an
analysis of 77 patients with an implanted cardioverter defibrillator
*J. Baumert^{1,2}, C. Schmitt³, K.-H. Ladwig^{1,2}, ¹Institute for Psychosomatic Medicine, Psychotherapy and Medical
Psychology, Technical University Munich, ²National Research Center for Environment and Health (GSF) and
Institute of Epidemiology, ³German Heart Center Munich, Germany*

4.30 pm Associations of NT-pro BNP with quality of life and anxiety in men and women with CHF risk factors
*C. Herrmann-Lingen, N. Rautenstrauch, L. Binder, C. Lüers, D. Wetzel, C. Pouwels, M. M. M. Kochen, B.
Pieske, Department of Psychosomatics and Psychotherapy, Goettingen, Germany*

- 4.45 pm Depression and quality of life in patients with chronic heart failure
M. Schowalter, Institute for Psychotherapy and Medical Psychology of the University of Wuerzburg, Wuerzburg, Germany
- 5.00 pm Symptoms of post-traumatic stress disorder related to cardiac surgery
V. Köllner, F. Einsle, S. Krauß, M. Knaut, K. Matschke, P. Joraschky, Department of Psychosomatic Medicine, Bliestal Kliniken, Bliestal, Department of Psychotherapy and Psychosomatics, Dresden University Hospital, Heart Center Dresden, University Hospital, Germany
- S 29**
Saphir 2 **Alexithymia II: Psychological diagnostics and neurobiological findings**
Chairs: G.I. Taylor, Toronto, Canada, H.J. Grabe, Greifswald, Germany
- 4.00 pm A structured interview for assessing alexithymia
R. M. Bagby, University of Toronto, Ctr. for Addiction and Mental Health, Toronto, Canada
- 4.15 pm Abnormal attentional bias in alexithymia
J. Müller, G. W. Alpers, N. Reim, H. Süß, Institute for Psychology, University of Wuerzburg, Germany
- 4.30 pm Temporal stability of alexithymia – a 5-year follow-up study in general population
J. K. Salminen, S. Saarijärvi, T. Toikka, E. Äärelä, J. Kauhanen, Research Department, Social Insurance Institution, Turku, Finland
- 4.45 pm The etiology and neurobiology of alexithymia
H. J. Grabe, University of Greifswald, Germany
- 5.00 pm Brain imaging studies in alexithymia
H. Karlsson ^{1,2}, P. Näätänen³, ¹Department of Psychiatry, University of Helsinki, ²Turku PET Centre, University of Turku, ³Department of Psychology, University of Helsinki, Finland
- 5.15 pm The influence of emotional content of visual stimuli on encoding activation: an fMRI-study
C. H. Röder¹, C. Morawetz ^{1,2}, V. van de Ven ³, G. Overbeck ¹, D. E. J. Linden ^{4,5,1}, ¹Department of Psychosomatic Medicine and Psychotherapy, University Frankfurt, ²Department of Psychology, University of Klagenfurt, ³Department of Cognitive Neuroscience, Faculty of Psychology, University of Maastricht, ⁴School of Psychology, University of Wales, Bangor, Wales, ⁵Max Planck Institute for Brain Research, Frankfurt, Germany
- 5.30 – 6.30 pm**
Saphir 1 **CLOSING LECTURE**
Chair: W. Soellner, Nuremberg, Germany
- 5.30 pm New strategies in psychosomatic research
J. E. Dimsdale, University of California, San Diego, La Jolla, USA
- 6.00 pm Closing remarks
H.- C. Deter, Department of Psychosomatic Medicine and Psychotherapy, Campus Benjamin Franklin, Charité Berlin, Germany

PRE-CONFERENCE:

**VII ANNUAL SCIENTIFIC MEETING OF THE EUROPEAN ASSOCIATION OF
CONSULTATION-LIAISON PSYCHIATRY AND PSYCHOSOMATICS (EACLPP), June 23–
24, 2004**

FUTURE DEVELOPMENTS IN CONSULTATION-LIAISON PSYCHIATRY AND PSYCHOSOMATICS

EACLPP SCIENTIFIC COMMITTEE

CHAIR

W. Söllner, Nuremberg, Germany
F. Creed, Manchester, UK
V. Arolt, Muenster, Germany
A. Diefenbacher, Berlin, Germany
T. Herzog, Goppingen, Germany
A. Lundin, Stockholm, Sweden
A. Riessland-Seifert, Vienna, Austria
P. Stix, Graz, Austria

INTERNATIONAL ADVISORY BOARD

C. Buddeberg, Zurich, Switzerland
F. Caduff, Thun, Switzerland
G. Cardoso, Lisboa, Portugal
S. Consoli, Paris, France
F. Creed, Manchester, UK
A. Diefenbacher, Berlin, Germany
P. Fink, Aarhus, Denmark
Th. Herzog, Goppingen, Germany
A. House, Leeds, UK
F. Huyse, Amsterdam/Groningen, The Netherlands
E. Guthrie, Manchester, UK
P. Hiltunen, Oulu, Finland
A. Kiss, Basel, Switzerland
G. Lloyd, London, UK
A. Lobo, Zaragoza, Spain
A. Lundin, Danderyd, Sweden
U. Malt, Oslo, Norway
S. Özkan, Istanbul, Turkey
A. Riessland-Seifert, Vienna, Austria
M. Rigatelli, Modena, Italy
T. Sato, Saga, Japan
G. Schüssler, Innsbruck, Austria
G. Smith, Melbourne, Australia
W. Söllner, Nuremberg, Germany
F. Stiefel, Lausanne, Switzerland
P. Stix, Graz, Austria
H. Takashi, Tokai, Japan

The EACLPP Scientific Meeting is supported by the German Society of Psychiatry, Psychotherapy, and Neurology (DGPPN) and by the German College of Psychosomatic Medicine (DKPM).

PROGRAM

Wednesday, June 23, 2004

Noon – 7.30 pm REGISTRATION

1.00 – 1.30 pm EACLPP OPENING CEREMONY

Saphir 1/2

F. Creed, Manchester, UK (President EACLPP),
M. Berger, Freiburg, Germany (President of the German Society of Psychiatry, Psychotherapy and
Neurology),
P. Joraschky, Dresden, Germany (President of the German College of Psychosomatic Medicine)

**1.30 – 3.00 pm PLENARY SESSION: CONSULTATION-LIAISON PSYCHIATRY
AND PSYCHOSOMATICS AND INTEGRATION OF CARE**

Saphir 1/2

Epidemiological data and their implications for clinical practice
V. Arolt, Muenster, Germany

Rethinking the approach to comprehensive medical and behavioral healthcare
R. G. Kathol, Burnsville/MN, USA

From consultation to complexity of care prediction and health service needs assessment
F. Huyse, Amsterdam/Groningen, The Netherlands

3.15 – 4.45 pm

CONCURRENT SYMPOSIA

SYMPOSIUM 1 *Saphir 1/2*

RECOGNITION AND TREATMENT OF PSYCHIATRIC DISORDERS IN THE MEDICALLY ILL, PART I

Chairs: *G. Lloyd, London, UK, U. Malt, Oslo, Norway*

Major depression at the general hospital: Prevalence, multidisciplinary assessment and co-morbidity
A. Andreoli, P. Dumont, N. de Tonnac, S. Borgacci, Y. Carballera, D. Rentsch, Genève, Switzerland

Depression in medical inpatients and therapeutic implications
A. Lobo and the REPEP Workgroup, Zaragoza, Spain

Development of guidelines on the management of delirium: A formalized expert's consultation
L. Michaud, Lausanne, Switzerland

Neuropsychiatric outcome after extracorporeal membrane Oxygenation (ECMO) treatment
I. Risnes, J. Jensen, I. J. Hynås, A. Helda, J. Svennevig, U. F. Malt, Oslo, Norway

SYMPOSIUM 2 *Rubin*

UNEXPLAINED MEDICAL SYMPTOMS/SOMATOFORM DISORDERS

Chairs: *E. Guthrie, Manchester, UK, M. Rigatelli, Modena, Italy*

Diagnostic problems about somatoform disorders
M. Rigatelli, S. Ferrari, Modena, Italy

Transcultural aspects of somatization
S. Özkan, Istanbul, Turkey

Childhood adversity and frequent medical consultations
J. Jackson, M. Fiddler, N. Kapur, A. Wells, F. Creed, Manchester, UK

The treatment of somatisation – the example of Irritable Bowel Syndrome
E. Guthrie, Manchester, UK

SYMPOSIUM 3 *Jade 1/2*

C-L INTERVENTIONS IN ONCOLOGY

Chairs: *M. Keller, Heidelberg, Germany, A. Kiss, Basel, Switzerland*

Recognition of distress in cancer patients in routine clinical care
M. Keller, A. Brechtel, C. Fischer, L. Knight, M. Otten, S. Sommerfeldt, Heidelberg, Germany

Consultation-Liaison service for women with cancer: Identifying needs for specific psycho-oncological interventions
B. Sperner-Unterwiesing, Innsbruck, Austria

Founding a new multidisciplinary consultation for pheochromocytomas and paragangliomas
K. Lahlou-Laforêt, A. Gimenez-Roqueplo, P. F. Plouin, X. Jeunemaître, S. M. Consoli, Paris, France

Psychodynamic interventions with cancer patients
F. Stiefel, Lausanne, Switzerland

Communication skills training for oncologists and oncology nurses
A. Kiss, Basel, Switzerland

SYMPOSIUM 4 *Opal*

C-L INTERVENTIONS IN GERIATRICS

Chairs: *A. House, Leeds, UK, J. Slaets, Groningen, The Netherlands*

Tools for case finding and care co-ordination in a consultation-liaison service for the elderly
J. P. Slaets, Groningen, The Netherlands

The Neecham Confusion Scale and the Delirium Observation Screening Scale: Comparison on predictive value
E. A. M. van Gemert, M. J. Schuurmans, Amsterdam, The Netherlands

Psychotherapy with the elderly
G. Stoppe, Basel, Switzerland

Integrated psychosomatic treatment in a geriatric day hospital
C. Adler, C. Sieber, W. Söllner, Nuremberg, Germany

4.45 – 5.15 pm **COFFEE BREAK**
5.15 – 6.00 pm **CONCURRENT POSTER SESSIONS**
Hall (number of poster in brackets)

POSTER SESSION 1

DETECTION AND TREATMENT OF PSYCHIATRIC DISORDER IN THE GENERAL HOSPITAL *Chair: A. Diefenbacher, R. Burian, Berlin*

Prevalence of depression among internal medicine inpatients at a general hospital – preliminary results (07)
A. Cordero, A. Conejo, M. Lozano, J. Ramos-Brieva, E. Ochoa, J. Saiz, J. Saban, Madrid, Spain

Using new psychoactive drugs and promoting psychotherapy in a psychosomatic C-L service (32)
P. Leiberich, K. Tritt, A. Hesse, C. Laahmann, T. Loew, M. Nickel, Regensburg, Germany

Patients with an acute myocardial infarction during their stay in the hospital – the change of their psychic disorder (71)
E. Fenner, G. Michels, R. Chalker, Kiel, Germany

The associations of psychological factors with poor treatment compliance in tuberculosis patients (66)
C. Dickens, Manchester, UK

Psychosocial burden in patients in the senior renal transplant program and those in the standard transplant program (35)
G. Ludwig, B. Nonnast-Daniel, M. deZwaan, P. deJonge, F. Stiefel, W. Söllner, Nuremberg and Erlangen, Germany, Groningen, The Netherlands, Lausanne, Switzerland

Body image and sexual functioning in patients having gastric bypass surgery for obesity (89)
V. Vaidya, Baltimore/MD, USA

Depressive, panic and neurasthenic disorders predict poor outcome in severe irritable bowel syndrome (20)
E. Guthrie, on behalf of the North of England IBS Research Group, Manchester and Sheffield, UK

Validation of the Danish psychic vulnerability scale (68)
L. F. Eplöv, J. Petersen, T. Jørgensen, M. Birket-Smith, C. Johansen, M. Osler, E. L. Mortensen, Copenhagen, Denmark

An examination of the connection between stress-markers and scoring on the Danish psychic vulnerability scale (69)
L. F. Eplöv, T. Jørgensen, M. Birket-Smith, C. Johansen, M. Osler, E. Mortensen, Copenhagen, Denmark

Psychic vulnerability as a genetic susceptibility to stress (70)
L. F. Eplöv, E. Møllerup, M. Birket-Smith, T. Jørgensen, Copenhagen, Denmark

The measurement of somatic complaints using the Giessen subjective complaints list in a psychosomatic outpatient sample (46)
F. Schlagenhauf, N. Schmitz, Duesseldorf, Germany

Factors linking soma and psyche? Psychosomatic interactions in chronic low back pain (47)
B. Schreiber, U. Bandemer-Greulich, U. Bahrke, K. Müller, E. Fikentscher, Halle, Germany

Joint hypermobility syndrome as a new biological marker of fear (61)
A. Bulbena, Barcelona, Spain

The lunar phases' influence on behaviour: Still a myth? (62)
A. Bulbena, Barcelona, Spain

Factitious disorders in general medicine: A case study (83)
M. Ozkan, Istanbul, Turkey

Seasonal and circadian time patterns of railway suicides: An analysis of 4003 cases (11)
N. Erazo, J. Baumert, K. H. Ladwig, Munich, Germany

Sex specific time patterns of suicidal acts on the German railway system (27)
K. H. Ladwig, Munich, Germany

Deliberate self-harm and capacity: Implications for emergency management (78)
R. Jacob, A. Holland, I. Clare, C. Maimaris, M. Gunn, P. Watson, Cambridge, UK

The morning salivary cortisol response in burnout (19)
G. Grossi, A. Perski, M. Ekstedt, T. Hansson, Stockholm, Sweden

POSTER SESSION 2

C-L INTERVENTIONS IN SPECIFIC CLINICAL AREAS

Chair: S. Ferrari, Modena, Italy

Spouses of patients suffering from cancer express higher levels of psychosocial distress than those of renal transplant or diabetic patients (06)

S. Consoli, E. Seigneur, C. Levacher, A. Duboust, J. J. Altman, J. M. Andrieu, Paris, France

A support group for patients who underwent laryngectomy for cancer (08)

M. C. Dolleas, C. Teissier, S. Hans, D. Brasnu, S. M. Consoli, Paris, France

Adjustment to invasive procedures in children with cancer: Cognitive-behavioural intervention (49)

E. Silveiras, L. Bernardes Rosa, São Paulo, Brazil

Consultation-Liaison experiences in dermatology – a European experience (17)

U. Gieler, Giessen, Germany

Liaison with hepatology: Managing psychiatric side effects induced by interferon therapy in hepatitis B and C (04)

U. Becker, Berlin, Germany

Effectiveness of post-abortion syndrome counselling in New York area (60)

E. Wierzbicka, J. Sokolowska, N. Versailles, Jamaica, N.Y., USA

How it begins: Child and adolescent psychiatric consultation in a children's hospital (87)

R. Schäfer, R. Frank, Stuttgart and Munich, Germany

Eldermen-I-Study: Is there a correlation between biographic traumatisation and psychogenic symptoms in older age? (67)

G. Driesch, G. Schneider, G. Heuft, A. Kruse, H. G. Nehen, Muenster, Heidelberg, and Essen, Germany

Neuropsychological aspects in delirium (72)

A. Gabriel, A. Diefenbacher, F. M. Reischies, Berlin, Germany.

Symptomatic psychosis in elderly patients and Consultation – Liaison psychiatry (64)

T. Cante, I. Celentano, C. Ciliberti, C. Cimmino, G. Foggia, E. Mauro, A. Rocco, D. Riccio, Napoli, Italy

A retrospective study on the activity of Consultation – Liaison psychiatry within a geriatric hospital (63)

T. Cante, I. Celentano, C. Ciliberti, C. Cimmino, G. Foggia, E. Mauro, A. Rocco, D. Ricci, Napoli, Italy

Disorders of renal function and electrolyte balance in psychiatric patients (74)

W. Hewer, H. W. Stark, Rottweil, Germany

Biochemical abnormalities in psychogeriatric patients (75)

W. Hewer, H. W. Stark, Rottweil, Germany

Medical interventions in patients with dementia (76)

W. Hewer, Rottweil, Germany

Neurotoxic syndrome induced by the concomitant use of paroxetine and olanzapine: A case report (79)

M. Sangines, R. Cejas, R. Soto, E. Martín, B. Rubio, M. Paz, Tenerife, Spain

Effects of a herbal medication on the delay of cognitive degeneration in dementia of Alzheimer type (91)

W. Whang, J. Kim, S. Chung, H. Kim, S. Cho, Seoul, Korea (South)

A tanned, depressive female anorectic patient – a case report (88)

J. Steiner, H. Zajontz, B. Baumann, Magdeburg, Germany

The impact of self-psychological concepts for the treatment of psychosomatic patients (86)

W. Milch, Giessen, Germany

POSTER SESSION 3

DEVELOPMENT AND FUNDING OF CONSULTATION-LIAISON SERVICES/MODELS OF INTEGRATED CARE

Chair: A. Riessland-Seifert, Vienna, Austria

Evaluation of the changing patterns of psychiatric referrals in a 5 year period in a large university (40)

M. Özkan, N. Kaçmaz, Istanbul, Turkey

Analysis of the reasons for referrals to the C-L Psychiatric unit at the Ramón y Cajal Hospital, Madrid (58)

J. J. Vázquez, M. Lozano, J. Ramos-Brieva, E. Ochoa, Madrid, Spain

When is psychosomatic support requested, accepted, or refused? (59)

K. Weidner, Dresden, Germany

Evaluation of screening instruments in the set up of a psychosomatic C-L service in a general hospital (38)

M. Monhof, N. Schmitz, Remscheid and Duesseldorf, Germany

The first contact with the patient in C-L psychiatry: What specificities? (85)

P. Renard, Liège, Belgium

INTERMED and multidisciplinary assessment of medical inpatients' complexity in Spain (34)

E. Lobo and the REPEP Workgroup, Zaragoza, Spain

Assessment

Assessment of case complexity by means of the INTERMED: The users' point of view (21)

M. Guitteny-Collas, J. M. Vanelle, S. Bydlowski, F. Stiefel, S. M. Consoli, J. L. Vénisse, Nantes and Paris, France, Lausanne, Switzerland

A psychosomatic "Fast Track" ward – a model for integrating a psychosomatic Consultation – Liaison service and psychosomatic in-patient treatment (10)

A. Eisenberg, W. Söllner, Nuremberg, Germany

Consultation – Liaison services and active co-operation: Models of good practice (13)

C. Fazekas, M. Stelzig, E. Jandl-Jager, G. Suchar, H. B. Rothenhäusler, H. P. Kapfhammer, G. Bergmann, P. Stix, W. Pieringer, Graz, Vienna, and Salzburg, Austria

The Spanish network of Liaison psychiatry and psychosomatics (REPEP) (44)

A. Sarasola, A. Lobo, P. Saz, M. F. Barcones, R. Cazarra, L. Larraga, F. Roy and REPEP Group, Zaragoza, Spain

Current status of Consultation – Liaison psychiatry in Switzerland (5)

F. Caduff, D. Georgescu, Thun, Switzerland

Evaluating the psychiatric consultation in a university hospital of the Canarias (65)

M. R. Cejas, R. Souto, E. Martin, M. Sanginés, M. Paz, R. Gracia, Tenerife, Spain

Psychological distress among patients attending a general medical out – patient clinic in Pakistan (22)

N. Husain, I. Chaudhry, S. Afsar, F. Creed, Manchester, UK

Comparison of Consultation – Liaison services before and after the introduction of a DRG system in Germany (25)

U. Kinzel, H. C. Thuberg, W. Weig, Osnabrueck, Germany

Using the PDA as a data collection device for an electronic record in C – L psychiatry (56)

J. J. Strain, New York City, USA

Quality management system in the Spanish network of Liaison psychiatry and psychosomatics (REPEP) (45)

A. Sarasola, A. Lobo, P. Saz, S. Carreras, J. Feijoo, O. Ibáñez, E. Lobo and REPEP Group, Zaragoza, Spain

Do quality circles diminish costs of care? Accounting data analysis of primary care physicians in a quality assurance study (18)

H. Glaesmer, U. Maschewsky-Schneider, H.-C. Deter, Berlin, Germany

6.00 – 7.30 pm CONCURRENT SYMPOSIA AND WORKGROUPS

**SYMPOSIUM 5
Saphir 1/2**

**RECOGNITION AND TREATMENT OF PSYCHIATRIC DISORDERS
IN THE MEDICALLY ILL, PART II
Chairs: A. Diefenbacher, Berlin, Germany, A. Riessland-Seifert, Vienna, Austria**

A psychosomatic screening in patients with chest pain

F. Einsle, M. Nitschke, K. Pollack, K. Petrovski, R. H. Strasser, P. Joraschky, Dresden, Germany

Implementing an effective intervention for problem drinkers on medical wards

M. Fiddler, S. Mcmanus, J. Hipkins, P. Haddad, E. Guthrie, F. Creed, Manchester, UK

Descriptive study of the psychosocial profile of patients seeking cosmetic surgery at St. Thomas' Hospital during 1996 – 2000

K. Valsraj, A. Hodgkiss, London, UK

The influence of prenatal diagnosis of congenital malformations on postnatal parental psychological well-being

H. Skari, U. F. Malt, K. Bjørnland, T. Egeland, T. G. Haugen, A. B. Østensen, Skreden M, Emblem R, Oslo, Norway

Frequent attenders of primary care: getting to know them
S. Ferrari, G. M. Galeazzi, M. Rigatelli, Modena, Italy

SYMPOSIUM 6
Rubin

MANAGING DELIBERATE SELF-HARM IN THE GENERAL HOSPITAL
Chairs: A. Lundin, Stockholm, Sweden, G. Niklewski, Nuremberg, Germany

Factors associated with suicidal risk among consulting young people in a preventive health center
E. La Rosa, T. Hubert-Vadenay, H. Le Clésiau, S. M. Consoli, Paris, France

Assessments of patients after attempted suicide made by the psychiatric and the psychosomatic C-L services
H. Lehfeld, S. Simen, G. Niklewski, E. Wentzlaff, S. Gutberlet, W. Söllner, Nuremberg, Germany

Managing deliberate self-harm in the General Hospital
M. Rigatelli, G. Palmieri, S. Ferrari, Modena, Italy

The Nuremberg alliance against depression: Results on the effects on suicidality after two years of intervention
G. Niklewski, H. Lehfeld, U. Hegerl, Nuremberg/Munich, Germany

SYMPOSIUM 7
Jade 1/2

WHAT IS THE BEST WAY TO LIAISE? MODELS OF INTEGRATED CARE
Chairs: A. Boenink, Amsterdam, The Netherlands, W. Söllner, Nuremberg, Germany

A randomized psychiatric intervention in complex medical patients: Effects on depression
F. Stiefel, F. Bel Hadj, C. Zdrojewski, B. Boffa, P. de Jonge, Y. Dorogi, J. C. Miéville, J. Ruiz, A. So, Lausanne, Switzerland, and Groningen, The Netherlands

Prevention of re-admission by an ambulatory case manager
C. Latour, F. J. Huyse, R. de Vos, E. A. M. van Gemert, P. de Jonge, A. D. Boenink, W. A. B. Stalman, Amsterdam, The Netherlands

A step towards integrative care: Liaison services with medical and surgical departments
S. Maislinger, W. Söllner, W. Kantner-Rumplair, G. Rumpold, G. Schüssler, Innsbruck, Austria, Nuremberg, Germany

The German model of integrated psychosomatic care
T. Müller-Tasch, W. Herzog, Heidelberg, Germany

WORKGROUP
Opal

SERVICE DEVELOPMENT AND FUNDING OF CL-SERVICES – RECOMMENDATIONS FOR CL-SERVICES IN EUROPE
Chairs: F. Creed, Manchester, UK, O. Ekeberg, Oslo, Norway, T. Herzog, Goppingen, Germany

Introduction: Service development and funding of C-L services – Towards European guidelines for C-L services
F. Creed, Manchester, UK, O. Ekeberg, Oslo, Norway, T. Herzog, Goppingen, Germany
Followed by interactive work with the participants in the workgroup

7.30 pm
Hall and Rubin

WELCOME RECEPTION AND CITATION POSTERS

Co – morbid depression in medical in-patients: Results of an ongoing prevalence and 6 – month follow-up (03)
M. F. Barcones, A. Sarasola, P. Saz, A. Lobo and the REPEP workgroup, Zaragoza, Spain

Depressive symptoms ensuing Herpes Encephalitis – an underestimated phenomenon? (12)
C. Fazekas, C. Enzinger, M. Wallner, S. Leonhardt, W. Pieringer, F. Fazekas, Graz, Austria

Inter – rater reliability, prevalence and relation to ICD – 10 diagnoses of diagnostic criteria for psychosomatic research in Consultation – Liaison psychiatry patients (16)
G. M. Galeazzi, S. Ferrari, A. Mackinnon, M. Rigatelli, Modena and Reggio Emilia, Italy, and Parkville, Australia

PO – Bado (Basic documentation in psycho – oncology) – an expert ratingscale for the assessment of the psychosocial condition of cancer patients (26)
L. Knight, G. Blettner, E. Schneider, A. Schumacher, G. Strittmatter, T. Brandl, P. Herschbach, M. Keller, Heidelberg, Muenster, and Munich, Germany

Does depression modulate autonomic cardiac control? (48)
M. Siepmann, M. Agelink, P. Joraschky, M. Rebusburg, K. Poehlmann, M. Mueck-Weymann, Dresden, Germany

Thursday, June 24, 2004

8.15 – 9.45 am **EACLPP PLENARY SESSION:FUTURE DEVELOPMENTS
IN CONSULTATION-LIAISON PSYCHIATRY AND PSYCHOSOMATICS**
Saphir 1/2

From C-L psychiatry to psychosocial advocacy:maintaining psychiatry's scope
G. C. Smith, Clayton/Melbourne, Australia

The sub-specialization "Psychosomatic Medicine" in the USA:Future tasks and priorities
J. Levenson, Richmond/Virginia, USA

Recommendations for the development and funding of C-L services in Europe
T. Herzog, Goppingen, Germany, Francis Creed, Manchester, UK

9.45 – 10.00 am **BREAK**

10.00 –11.30 am **EACLPP COURSES**

COURSE 1 **How to operationalize the bio-psychosocial model:the INTERMED method –
an integrated risk management system**
Jade 1/2
F. J. Huyse, Amsterdam, Netherlands, F. Stiefel, Lausanne, Switzerland

With this risk management system the detection and analyses of patients with multi-disease including psychiatric is facilitated to an empirical driven model allowing to initiate a multi-professional care trajectory for patients in need of it. A DVD with interviews to be used in training sessions and a software program for the implementation in clinical practice will be presented.

COURSE 2 **How to implement quality management in C-L**
Opal
T. Herzog, Goppingen, Germany, B. Stein, Freiburg, Germany

Based on large scale experiences with the introduction of quality management in CL services across Europe a QM strategy developed for the specific needs of CL will be presented. Participants are requested to prepare lists of the most pressing quality issues in their local services. This material will be used in the interactive part of the workshop (Translation in German language if needed).

COURSE 3 **Psychopharmacotherapy in medically ill patients – Principles, interactions, risks**
Turmalin 1/2
H. P. Kapfhammer, H. B. Rothenhäusler, Graz, Austria

The workshop will deal mainly with two basic C-L psychiatric challenges in somatically ill patients: The pharmacological management of delirant patients on the one hand, and of depressive-anxious patients on the other. A proper psychopharmacological treatment will be characterised in respect of side effects, interactions in hepatic metabolism, and possible negative effects on the pathophysiological process (The course will be done in German language).

11.30 – 11.45 am **BREAK**

11.45 am – 1.30 pm **COMMON SYMPOSIA ECPR AND EACLPP**

Common symposium 1:
Psychosomatic service systems in Europe.

Common symposium 2:
Cultural influences on health and disease.

Common symposium 3:
Depressive disorders and somatisation: Psychotherapy or psychopharmacotherapy
(see Programme of the ECPR, page 10/11)

1.30 – 2.30 pm **BUSINESS MEETING EACLPP – ANNUAL ASSEMBLY**
Jade 1/2

7.30 – 9.00 pm **COMMON SESSION EACLPP AND ECPR**
Jade 1/2
"Psychiatry in National Socialism"
T. Müller, T. Beddies, R. Winau, Berlin, Germany

Sunday, June 27, 2004

10.00 – 12.00 am POST CONFERENCE ACTIVITIES

1 Medical historical guided tour in the city of Berlin
(R. Winau, Medical Historical Institute, Charité, Berlin, Germany)

Post-Conference Workshops

2 Art-therapeutic session
(U. Knott, Wandlitz, art-therapist, Germany)

3 Konzentrative Bewegungstherapie
(Concentrative movement therapy)(Ingrid Kühl-Drewry, Wandlitz body therapist)

4 Working group Tinnitus
(J. Frommer, Department of Psychosomatic Medicine, University Magdeburg, Germany),

5 Sports with members of the Institute of Sports, Humboldt University, Berlin

EXHIBITORS AND SPONSORS

The organizers of the 25th European Conference on Psychosomatic Research gratefully acknowledge and thank the following companies (in alphabetical order) for their support:

- Astra Zeneca
- Charité, Berlin
- cibait AG
- Deutsche Forschungsgemeinschaft (DFG)
- Elsevier – Journal of Psychosomatic Research
- Kliniken im Theodor Wenzelwerk
- Lehmanns Fachbuchhandlung
- Lilly/Boehringer Alliance
- Michels Brandenburg Kliniken, Wandlitz
- S.Karger AG – Medical and Scientific Publishers

The 7th Scientific Meeting of the European Association of Consultation-Liaison Psychiatry and Psychosomatics has been generously supported by:

- German Society of Psychiatry, Psychotherapy and Neurology (DGPPN)
- German College of Psychosomatic Medicine (DKPM)
- Lilly/Boehringer Alliance
- Lundbeck GmbH
- Pfizer GmbH
- Sanofi Synthelabo
